Course Description (from the Xavier University Catalog)
“Applies organizational and marketing theories to the understanding and management of the process by which leaders and their top management teams formulate organizational mission, assess external environments, and align internal resources in the implementation of organizational strategies weaknesses and threats.”

Domain/Competence Model for Graduate Health Services Administration Education
This course consists of discussion, analyses and lecture designed to flow from and strengthen the following domains and affiliated competencies:

Domains/Competencies
Domain I: Knowledge of the Healthcare Environment
1. Be able to describe and current issues and trends in the organization and delivery of healthcare (acute care, ambulatory care, medical practice, and ancillary services.

Domain II: Business Skills and Knowledge
1. Understand the principles of strategic management.
2. Be able to develop a healthcare marketing plan.
3. Be able to apply strategic, economic, and financial principles to decision making in the healthcare environment.

Domain III: Communication and Relationship Management
1. Be able to manage interpersonal communications by building collaborative relationships.
2. Be able to write in an effective, concise business style.
3. Be able to present information using appropriate oral skills and technology.
4. Be able to work effectively in teams.

**Domain IV: Law, Ethics and Professionalism**
1. Demonstrate a willingness to contribute meaningfully to one’s profession and to the community.
2. Demonstrate effective time management skills.

**Domain V: Leadership**
1. Be able to manage yourself and lead others.
2. Be able to plan for and implement change.
3. Be able to honestly assess one’s strengths and weaknesses.
4. Understand and be able to apply systems thinking.
5. Be able to define the problem and look for opportunities.

**Course Objectives**
At the end of the course the student should have:

1. Gained advanced factual knowledge of strategic management and marketing
2. Learned the principles and theories of strategic management
3. Learned the principles and theories to develop a health care marketing plan
4. Developed the professional skills and view points necessary for managers
5. Learned the management discipline’s method for gaining new knowledge
6. Learned to do critical thinking and problem solving with respect to strategic management and marketing.
7. Prepared for further program requirements, including the program’s capstone course which will integrate the concepts and skills associated with managerial problem solving in the health sector

To demonstrate achievement of these objectives, the student must be able to demonstrate the following skills:

- Research and compose a comprehensive internal and external environmental analysis, competitive analysis, marketing research study and marketing plan
- Use Porter’s Five Forces Model of competition and apply it to health care organizations.
- Appropriately analyze case studies utilizing Strengths, Weaknesses Opportunities, Threats (SWOT) methods.
- Participate effectively in a strategic management team.
HESA Mission Statement:
This Course is consistent with our HSA Department Mission Statement: In keeping with its Catholic, Jesuit tradition, the mission of the Department of Health Services Administration at Xavier University is to educate knowledgeable, highly skilled, values-oriented future leaders who will contribute to the health of society by continuously improving the management of health related organizations. HSA will accomplish its mission through:

· Challenging students in the classroom and in applied field experiences including internships and administrative residencies - This course achieves this objective by the Philanthropy Project assignment.

· Developing internal and external collaborative relationships with academicians and with health care practitioners which lead to innovations in teaching as well as in the delivery of health services - The mid-term project has the potential for collaborative relationships, as well as the philanthropy project.

· Incorporating research, scholarship, and collaborative projects into the classroom experiences and field work. The mid-term project has the potential for collaborative relationships, as well as the philanthropy project.

Course Requirements and Methodology
Requirements
This course is a core course in GPHSA curriculum and, therefore, is a course that will provide theoretical and knowledge based competencies essential for success in the GPHSA program. Specific skills gained in this course will also provide a foundation for success in this program and in professional settings.

This course will use a multifaceted approach, which challenges the student to take an active role in their learning. To that end, a variety of lectures, case studies, discussions, group and individual projects will be used.

During the second class, Philanthropy teams will be formed. These teams will serve two purposes: 1) to give the participants first hand experience in team/group development and performance and 2) to enhance the efficiency and effectiveness of the learning experience. This is a very special opportunity to work and serve in the community.

Students are expected to faithfully keep up with all assigned readings and come to class prepared to participate. Please bring the readings/cases to each class. Students are required to check the Blackboard Web Site that accompanies this class and to check Email frequently for updates. The instructor reserves the right to change or modify the course syllabus at her discretion.
Methodology

Class attendance and participation
This course will use a multifaceted approach, which challenges the student to take an active role in their learning. To that end, a variety of lectures, case studies, discussions, industry guest lectures, group and individual projects will be used. **Students are expected to faithfully keep up with all assigned readings and come to class prepared to participate.** Students are expected to attend every class section. If you are unable to come to class, you must notify the instructor prior to the session via Email or phone message, otherwise it will be counted as an unexcused absence. **Work submitted after the due date will be reduced by five points (one letter grade).**

Evaluation/Major Assignments: The goals of these evaluation techniques will be have the student demonstrate their knowledge and skills as defined by the Key Domains for this course. In particular, we require the students to be able to demonstrate the following skills that supports learning: Effective written, oral communications and presentation skills; the ability to reflect meaningfully on readings and scholarly journals; preparation and delivery of business communication including presentations and business reports; cooperative relationships and effective information exchanges with peers; finally, thorough research techniques, with the intent to encourage life long learning, seeking information from a variety of sources to stay current with industry trends.

**Evaluation/Major Assignments**

- **Group Case Assignment: (15% of final grade):** Students will prepare a presentation analyzing their assigned case (not report needed this semester).

- **Strategic Analysis Project (30% of final grade)** – Students will be evaluated with a comprehensive strategic project. You will select an organization and conduct an environmental analysis and competitive service analysis for your organization. The elements for the project will be as follows:
  - Specify the Service Category
  - Delineate the Service Area
    - Geographic
    - Economic
    - Demographic
    - Lifestyle issues
    - Health Status
  - Porters Analysis (Service Area Structure Analysis)
  - Competitor Analysis
  - Service Category Critical Success Factors
  - Synthesis

You should consider selecting an organization that may be a potential residency or employment site. This assignment will be handed in sections, due on **February 28** and **April 11th**
• **Group Case #3 (Final) Combined Project with Corporate Finance (30% of final grade)** The day class (both sections) will work in groups on a special project done in combination with the Corporate Finance Course. This assignment involves awarding a $4,000 grant to a not-for-profit organization of your choice. Students will be assigned a healthcare/social needs category by the faculty and the students will propose an organization that will benefit from this grant opportunity. Groups will complete a grant proposal on behalf of the organization and present this proposal to the third year part-time students in the evening section of Strategic Management and Marketing. This group will serve as the “grant review organization” and will determine which group(s) will receive the award. This is a competitive grant review process. Students will be present their grant proposals during an evening session. Also, the class will attend the awards ceremony held late in the semester.

• **Assignments/Journal Club (15% of final grade):** Short projects and assignments will be due throughout the semester. Also, your case executive summaries count towards this component of your grade. Journal club schedule is found on the Blackboard.

• **Class Participation (10% of final grade):** In order to participate, you must attend class, and offer your thoughts and insights into the discussion.

**Evaluation:**

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Case Presentation</td>
<td>15%</td>
</tr>
<tr>
<td>Mid-Term Project</td>
<td>30%</td>
</tr>
<tr>
<td>Final Project/Finance</td>
<td>30%</td>
</tr>
<tr>
<td>Assignments/Quiz grades/Individual Case analysis/Journal club</td>
<td>15%</td>
</tr>
<tr>
<td>Class Participation/ Engagement</td>
<td>10%</td>
</tr>
</tbody>
</table>

**Grading Scale: This is the official scale of the Department**

- A: 94+  
- B+: 86-89  
- C+: 75-79  
- A-: 90-93  
- B: 82-85  
- C: 70-74  
- B-: 80-81  
- F: <69  

**Department’s description of the letter grades is presented here:**

- A or A- Represents academic performance that is exceptional or significantly above expectations.
- B or above represents academic performance that meets or is somewhat above expectations.
- B- or lower represents academic performance that is somewhat to significantly lower than expectations.
Required Texts

Electronic Reserves that are also required
Marketing reading to be assigned later in the semester.

Journals and Books:
Any assigned readings will be posted in the Blackboard under Course Documents/Readings. Please be sure to check this listing weekly for new updates.

Academic Honesty

Xavier University Catalog
The pursuit of truth demands high standards of personal honesty. Academic and professional life requires a trust based upon integrity of the written and spoken word. Accordingly, violations of certain standards of ethical behavior will not be tolerated at Xavier University. These include theft, cheating, plagiarism, unauthorized assistance in assignments and tests, unauthorized copying of computer software, the falsification of results and material submitted in reports or admission documents, and the falsification of any academic record including letters of recommendation. All work submitted for academic evaluation must be the student’s own. Certainly, the activities of other scholars will influence all students. However, the direct and unattributed use of another’s efforts is prohibited as is the use of any work untruthfully submitted as one’s own. Penalties for violations of this policy may include one or more of the following: a zero for that assignment or test, an “F” in the course, and expulsion from the University. The dean of the college in which the student is enrolled is to be informed in writing of all such incidents, though the teacher has full authority to assign the grade for the assignment, test, or course. If disputes of interpretation arise, the student, faculty member, and chair should attempt to resolve the difficulty. If this is unsatisfactory, the dean will rule in the matter. As a final appeal, the academic vice president will call a committee of tenured faculty for the purpose of making a final determination.

Faculty Note
In addition to the above (taken directly from the University Catalog), please be aware that cutting and pasting from the Internet without attribution is unacceptable. If you use more than three words written by someone else, those words should be enclosed in quotation marks and appropriately noted.

This syllabus and course outline are subject to change due to unforeseen circumstances.
HESA 519 Sections 01, 02  Course Outline Spring 2014

NOTE: The readings listed for the class meetings below are to be prepared PRIOR to the class in which they are listed; i.e., students are responsible to have read and prepared questions based on those readings for that class.

Class #1  Date: January 17
Topic: Course Overview / Nature and Logic of Strategic Management and Marketing/Directional Strategies

Objectives: At the end of the class, students should be able to:
1. Understand the overall course objectives, structure and assignments.
