

Aggression

Why do we not change?

We follow 1,000-year-old patterns

Expecting things to be better

The policies have changed some

But still discriminate minority groups

We haven't changed since the 20's

Communities still play into white flight

We get scared of communities not like ours

Run down and impoverished seemingly unsafe to passerby's

They have dreams they can never reach

Hopes that are only hopes because they are unattainable to people who are discriminated against

The fights, the fear, the unrest

Will it ever change
