MATH 391/393 Mathematics Seminar: Spring 2014

Course Content: For mathematics majors, in their final three semesters. MATH 391 is designed to introduce students to the culture of professional mathematicians and to prepare them to begin work on their senior projects, the substantial capstone experience of the mathematics degree program. (MATH 392, taken by seniors in the fall semester, provides structure for doing the research necessary for their project under the student's faculty advisor.) MATH 393 is taken by majors in their final semester, during which they write up their project paper and prepare the formal oral presentation which is delivered before members of the department.

Time & Place: T 4:00 - 4:50pm, HAI 17
Instructor: Daniel E. Otero
Office Hours: Hinkle 104: MTWF 1:00 - 2:30pm, or by appointment
Phone: 745-2012 (voicemail available)
