2018 Fall Semester**

Course Number and Title: NURS 753 Community Nursing and Public Health Policy Practicum

Number of Credits: Two semester credits (2)

Time/Location: 8 clock hours per week for the semester

Clinical: Times and locations as designated by faculty and community clinical sites on Wednesday (5 hours /week; 14 x 15 weeks = **70 hours**.)

Community Hours: Thursday 9:00AM – 12:00PM when not in seminar. Seven weeks X 3 hours/week = **21 hours**.

TOTAL PLANNED CLINICAL HOURS: 70 hours + 21 hours = **91 hours**.

Lab Hours: High Fidelity Simulation (HFS) [1 week X 5 hours]= **5 hours**.
Thursdays, 9:00 AM – 12:00 Noon (Kennedy Auditorium-Conaton Learning Center Room 412),for Low Fidelity Simulation (LFS) Experiences based on Content Experts Presentations (School Health, Safety, Environment/Housing, Human Trafficking, etc.) [8 weeks X 3 hours) = **24 hours**.

TOTAL PLANNED LAB HOURS: 5 hours (HFS) + 24 hours (LFS) = **29 hours**.

TOTAL CLINICAL + LAB HOURS = (91 hours + 29 hours) =120 hours.

CNL Immersions Hours = 10 hours (Diversity Assignment-5 hours/Advocacy Assignment-5 hours)

Prerequisite(s): All NURS 500 and 600 level practicum courses.

Co-requisite(s): NURS 752 Community Nursing & Public Health Policy

Course Description:

NURS 753 Community Nursing/Public Health Policy Practicum: Provides opportunities to assess and analyze the strengths and needs of communities and populations using various community/assessment Frameworks/Models. The partnership role of the community as client/teacher with the holistic nurse is emphasized. The focus is on primary prevention and culturally competent health care management using evidence-based practices to achieve public health policy goals.

Course Objectives:

1. Examine interrelationships of macro and micro health systems as related to the role of Community/Public health nurses.
2. Use epidemiologic methods to describe the state of health of populations or a community.
3. Delineate activities for increased nurse involvement in the policy process.
4. Enact the role of a community health nurse in selected settings.
5. Demonstrate application of the standards of Public Health Nursing Practice in caring for populations.
6. Employ a comparative model to study an international program or a global health policy.

Methods of Instruction:

Conference/guest lectures, small group work, home visits, clinical experience, and Web Base Applications/Media

Attendance:

Clinical practice is an integral part of professional nursing education. The student is expected to be at the clinical site at the agreed upon time. In this course any missed clinical hours must be rescheduled. Should circumstances prevent a student from attending clinical, it will be the responsibility of the student to inform the instructor **and** the preceptor or clinical agency prior to the agreed upon time.

**Xavier University
College of Professional Sciences
School of Nursing
2018 Fall Semester**

Attendance Policy for Low Fidelity Simulation (LFS): Attendance is mandatory and students are expected to be in the classroom at 9:00 a.m. Student will have 1 point deducted from the final grade for each 15 minutes tardy. Each student is allotted one “grace” absence. Missed LFS days will result in losing grade point *from the final grade for class* as follows:

- 3 points for 2nd absence
- 6 points for 3rd absence
- 9 points for 4th absence

Professional Behavior:

Refer to Student Handbook. LFS presenters donate their time and expertise to our students. Professional attentiveness is expected. Electronics (computers, iPads, phones) will not be allowed during LFS presentations, with the exception of week one and reviewing materials for screening in the CPS schools. LFS presentations will be held in the Kennedy Auditorium, Conaton Learning Center, Room 412. Water is permitted in the auditorium, but please use a container that has a lid.

Written Work:

All written work must be emailed by the due date and time selected by the clinical faculty member. Any late work will result in 5 points per day being deducted from the original grade.

Evaluation Methods:

Grade Percentage

Clinical Evaluation and Summary based on preceptor and faculty feedback (see Summary of Final Grade)	10%
Population-Based Community Assessment-PART 1	5%
Population-Based Community Assessment-PART 2	5%
Population-Based Community Assessment-PART 3	5%

Grading Scale

94 and up	=	A	80-82	=	B-
90-93	=	A-	76-79	=	C+
87-89	=	B+	70-75	=	C
83-86	=	B	Below 70	=	F

Xavier Mission

Xavier is a Jesuit Catholic University rooted in the liberal arts tradition. Our mission is to educate each student intellectually, morally, and spiritually. We create learning opportunities through rigorous academic and professional programs integrated with co-curricular engagement. In an inclusive environment of open and free inquiry, we prepare students for a world that is increasingly diverse, complex and interdependent. Driven by our commitment to the common good and to the education of the whole person, the Xavier community challenges and supports students as they cultivate lives of reflection, compassion and informed action.

Academic Honesty (from student handbook)

“The pursuit of truth demands high standards of personal honesty. Academic and professional life requires a trust based upon integrity of the written and spoken word. Accordingly, violations of certain standards of ethical behavior will not be tolerated at Xavier University. These include theft, cheating, plagiarism, unauthorized assistance in assignments and tests, unauthorized copying of computer software, the falsification of results and material submitted in reports or admission and registration documents, and the falsification of any academic record, including letters of recommendation.

All work submitted for academic evaluation must be the student's own. Certainly, the activities of other scholars will influence all students. However, the direct and unattributed use of another's efforts is prohibited as is the use of any work untruthfully submitted as one's own.

Penalties for violations of this policy may include a zero for that assignment or test, an "F" in the course and expulsion from the University. The dean of the college in which the student is enrolled is to be informed in writing of all such incidents, though the teacher has full authority to assign the grade for the assignment, test or course. If disputes of interpretation arise, the student, faculty member and chair should attempt to resolve the difficulty. If this is unsatisfactory, the dean will rule in the matter. As a final appeal, the academic vice president will call a committee of tenured faculty for the purpose of making a final determination.”

Caveat

The schedule and procedure in this course are subject to change in the event of extenuating circumstances as well as class learning needs and desires.

Students with Disabilities

Qualified students with disabilities who will require disability accommodations in this class are encouraged to make their requests to me by sharing their Accommodation Letters with me at the beginning of the semester either during office hours or by appointment. Disability related information is confidential. If you have not previously contacted Disability Services, I encourage you to do so by phone at 513-745-3280, in person on the Fifth Floor of the Conaton Learning Commons, Room 514, or via e-mail to Cassandra Jones at jonesc20@xavier.edu, to coordinate reasonable accommodations as soon as possible as accommodations are not retroactive.

**Xavier University
College of Professional Sciences
School of Nursing
2018 Fall Semester**

Social Media

Social media and the internet provide an important medium for sharing information and offers easily accessible methods for mass communication. Nursing students must be aware of the risks and consequences associated with social networking. On-line social networking (e.g., Face book, MySpace, Twitter, blogs, etc.) are open, publicly accessible sites. Unprofessional or unbecoming online behavior undermines not only the nursing student's reputation, but may also have negative implications for Xavier University, and the profession of nursing. Certain violations in the use of social media may expose the offender to criminal and civil liability. Refer to the student handbook or the handbook policy addendum for more information and to view the Social Media Policy <http://www.xavier.edu/nursing/current-students.cfm>

Additional Resource

Office of Student Success
Location: 514 Conaton Learning Commons
Phone: 513-745-3036
Email: studentretention@xavier.edu

The Staff in the Office of Student Success is available to assist students to make the most of their Xavier experience. Personal staff consultations, success coaching, referrals to on-campus Solution Centers, and guiding students to effectively navigate their college experience are central to our work. Please visit www.xavier.edu/student-success to learn more or visit us in the Conaton Learning Commons.

NURS 753 - COMMUNITY NURSING and HEALTH POLICY PRACTICUM
COURSE OBJECTIVES EVALUATION-Fall, 2018

✓ Check the appropriate box below. Describe evidence to support the rating in the last column. Student Name _____

Course Objectives	Independent (5) The student met stated objectives without consistent supervision.	Supervised (4) The student met stated objectives under "Independent" but with consistent supervision.	Assisted (3) The student met Stated objectives but requires ongoing assistance to translate concepts to practice.	Provisional (2) The student is unable to complete assignments related to stated objectives in a timely and consistent manner.	Dependent (1) The student is unable to meet the objectives of the course.	Evidence
Examine interrelationships of macro and micro health systems as related to the role of Community/Public Health Nurses.						
Use epidemiologic methods to describe the state of health of populations or a community.						
Delineate activities for increase nurse involvement in the policy process.						
Enact the role of a community health nurse in selected settings.						
Demonstrate application of the Standards of Public Health Nursing Practice in Caring for populations.						
Employ a comparative model to study and international program or a global health policy.						

Note: Student must have a score of 3 or higher on each objective to have met the course objectives. Include written evidence of the student meeting the objective/s based on preceptor feedback shared with faculty, faculty discussions, observations, and interactions with student.

2018 Fall Semester**

**NURS 753
Community Nursing and Health Care Policy Practicum
Journal Guidelines and Rubric**

Journal Guidelines:

1. Each student will keep an electronic journal; making entries once a week.
2. **All entries must include an accounting of time spent in practicum and population-based community assessment activities with the specific date, clinical/seminar experience, and the time in activity (e.g. 8am – 1pm). Population-based community assessment activities have been scheduled on Thursdays from 9:00 a.m. – 12:00 p.m. for 7 weeks. Total number of hours = 21.**
3. The journal serves as a means of self-evaluation and reflection on the clinical experience, the population-based community assessment experience and the topics presented in the seminar. Journal entries are to assist the student in the integration of experiences with course objectives and concepts/knowledge learned in didactic (NURS 752). Students will also reflect on observations/experiences they have related to interprofessional collaborative practice as well as integration of Ignatian values and traditions (SEE XU Values and Traditions Wheel) while working in their clinical site. Reflection on progress in course objectives and integration of knowledge from didactic (NURS 752) should be included on a regular basis.
4. The journal will be due **every Sunday night at 11:59 PM**; and uploaded to Canvas for review by faculty. **The last journal is due on Thursday, December 6, 2018 for the last clinical days activities on Wednesday, 12/5/2018 by 9:00 a.m.**
5. The journal entries should be at least **2 full double spaced pages** in length for each entry.

**NURS 753
Community Nursing and Health Care Policy Practicum
Cultural Diversity Assignment and Rubric**

Aggregate: Individuals/ families who are homeless or at risk of homelessness.

Objective: Expand awareness of the challenges to health for persons who are homeless through a service and communication learning experience.

Before volunteering read the following articles and play the video game:

1. Clayton, L. H., & Dilley, K. B. (2009). Service learning: population-focused nursing for the homeless at a soup kitchen. *Nurse Educator*, 34(3), 137-139. doi:10.1097/NNE.0b013e3181a026fc
2. Gerber, L. (2014). Caring for the Homeless, an Underserved Population. *Florida Nurse*, 62(2), 19.
3. Stanley, M. J. (2013). Teaching About Vulnerable Populations: Nursing Students' Experience in a Homeless Center. *Journal Of Nursing Education*, 52(10), 585-588. doi:10.3928/01484834-20130913-03
4. Play video game "Spent" at www.playspent.org . Play it at least twice.

Guidelines:

1. Call and arrange a time to volunteer with one of the agencies on the list- preferably in your assigned community (for the assessment).
2. Let the contact know how many will be coming. (Many agencies are limited in the number of students that can come at one time.) This assignment may be completed in groups of up to four but the group MUST get the approval of the agency regarding the number of students to come at one time.
3. Time expectation is 4 - 6 hours at the agency.
4. The type of volunteerism is not as important as the opportunity to meet face to face with persons who are culturally diverse and are without permanent housing. The student is to be professional in this encounter, but it is not meant to be therapeutic.
5. The student will journal about this encounter with examples of interactions with individuals who are facing homelessness. Students should not use full names of clientele or take pictures of the experience.
6. The journal entry should include the date, time, and agency name and contact with a 2 - 3 page reflection on the experience. **Due on November 14, 2018.**
7. The student will share the experience during a seminar day (Thursday). Speak with your assigned Adjunct to schedule a time to share during the semester.

Questions to reflect on:

- a. What is a typical day like for this population?
- b. What are the barriers they face in caring (generally and specific to any illness) for their own health or their family?
- c. What is their access to health care? What barriers do they face in accessing care?
- d. Did the readings, video game and experience provide you with different perspectives that will be useful in future work in nursing? **Describe how.**

See rubric for grading.

NURS 753

Community Nursing and Health Care Policy and Advocacy Discussion

Purpose:

The purpose of this discussion is to be able, from a population-based, community health nurse/CNL perspective, to discuss the importance of the role of community/population based nurses/CNL's in **global health policy and advocacy** related to the population of interest.

Review the following references and answer the discussion questions:

References:

9. Van den Heede, K., & Aiken, L. (2013). Nursing workforce a global priority area for health policy and health services research: A special issue. *International Journal Of Nursing Studies*, 50(2), 141-142.

Discussion Questions

1. How does the **broader role of global health policy and advocacy** impact the population of interest?
2. After identifying **one global health issue** related to your population of interest that resonates with you, what role could you play as a community/population-health RN/CNL at the global health policy and advocacy level to address the global health issue identified?
3. What specific activities (chose 3 – 5 activities) would you complete as a community/population-health RN/ CNL to advocate on behalf of the population of interest impacted by the global health issue identified?

Answers to Discussion Questions Due:

Monday, December 3, 2018 at 11:59 p.m.

Response to two peers Due:

Monday, December 10, 2018 at 11:59 p.m.

NOTE: Responses to the questions should be 8-10 sentences for each question with at least 2 references in APA (6th ed) format. Responses to peers should be substantive (e.g. at least one paragraph) that: a) promotes open critical dialogue, b) asking questions, c) promotes critical thinking, and d) promotes community learning. See discussion rubric for grading.

NOTE: Discussion and peer responses are due on the designated dates. Ten percent (10%) will be deducted for all late discussions/responses. Discussions will not be accepted beyond 24 hours of the designated date.

This is a group discussion. See rubric for grading.

2018 Fall Semester**

**NURS 753
Community Nursing and Public Health Policy Practicum
Population-Based Community Assessment PARTS 1, 2, & 3**

Purpose and Description:

The purpose of the population-based community assessment process and resulting documentary is to provide the student group with the opportunity to share their learning and understanding of key concepts associated with a multi-step population-based community assessment and analysis using multimedia resources. The population-based community assessment will enable the student group to select a population of interest, and examine one issue effecting the population of interest in the community, neighborhood and/or city where the population of interest live work and play. Based on the population-based community assessment completed in Parts 1 & 2, the student group will implement and evaluate interventions that are evidence-based (Part 3), and describe the role that health policy may play in identifying, sustaining, and evaluating population-based community interventions. Student groups will also gain insight into the community with respect to levels of health care, levels of prevention, and health interventions while incorporating classroom learning to a population-based community context. This student group project provides an opportunity for all members of the clinical group to fully participate. This assignment also aims to advance collaborative skills within a group, within the population of interest, and with community members/stakeholders.

Population-Based Community Assessment Part 1

INITIAL STEPS: During the first week of the semester students will complete an exercise with assigned faculty entitled, "What is a Population of Interest?" The exercise will allow each student assigned a community placement either a school experience (elementary, middle, high school) or a community-based experience (Visiting Nurses Association, Hospice of Cincinnati, and Cincinnati Health Department) [each 8 weeks in length] to brainstorm the kinds of populations they may encounter in their clinical practicums. Students will begin their clinical practicums on Wednesday, August 29, 2018. In the 3rd week of school, students will participate in a guided exercise entitled, "Population-Based Analysis," on Wednesday, September 5, 2018 during NURS 752. During that class, each group will review their population of interest identified in their assigned clinical practicums, complete a population-based analysis and decide which population will be of interest for the population-based community assessment. The community, neighborhood and/or city are selected after the population of interest has been defined and agree upon by the group.

On Thursdays, September 6 & 13, 2018 the group will meet in the community with their assigned faculty to accomplish the following:

1. If possible, meet/interact with the population of interest in their setting (school, home, health department, etc.)
2. Identify stakeholders and community members interested in the population of interest (a population that is "essentially healthy but could improve factors that promote or protect health" (Reference: Keller, L. O., Strohschein, S., & Briske, L. (2008). *Population-based public health nursing practice: The intervention wheel*. Public health nursing: Population-centered health care in the community, 186-214, p. 191). Retrieved August 18, 2016 from, http://www.coursewareobjects.com/objects/evolve/E2/book_pages/stanhope/pdfs/Stanhope_Ch09.pdf
3. Review "Community Level of Practice" in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 80-81.
4. Review Table 3.5 entitled, "Community Health Assessment Process" in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) p. 82.
5. Review Table 3.6, "Community Assessment" in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 83-87.

**Xavier University
College of Professional Sciences
School of Nursing
2018 Fall Semester**

6. Spend time as a group reviewing the elements of a community assessment which include population “vital signs” (see pg. 81) and the elements outlined in Table 3.6, “*Community Assessment*” in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 80-89.
7. Review “*Gathering Community Data*” in Chapter 3 of Dreher, M.C., Skemp, L.E. & Lehmann, S.P. (2016) pp. 42-63.
8. Review “*Accessing Public Health Data*” in Chapter 3 of Dreher, M.C., Skemp, L.E. & Lehmann, S.P. (2016) pp. 65-72.
9. Review “*Culturally Informed Community Health Analysis*” in Chapter 3 of Dreher, M.C., Skemp, L.E. & Lehmann, S.P. (2016) pp. 72-74.
10. After group members have discussed and agreed upon which section/s of the community assessment they will research, begin collecting community, neighborhood and/or city assessment data based on where the population of interest lives, works, and plays. See “Vital Signs,” (Mortality Data, Life Expectancy, Years of Potential Life Lost, Morbidity Data, Health Behaviors Data, Health and Life Satisfaction Data, and Functional Health Data. Continue with Table 3.6, “*Community Assessment*,” Part 1: Determinants of Health: Section 1. Biology, Section 2. Behaviors, Section 3. Physical Environment, Section 4. Social Environment, Section 5. Policy and interventions and Part 2: Analysis of Population and Community Health Status-Section A. Health Statistics and Section B. Determining Community Health Priorities, as described in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp.83-89.
11. Review the Windshield and Walking Surveys information on page 16 of the course syllabus and pp. 89 – 90, “*Windshield Survey*,” in Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) and discuss next steps for completing the surveys.
12. Discuss potential interviews that need to be completed with the population of interest and community members and assign to group member/s to complete.
13. Review Population-Based Community Assessment Documentary Guidelines and Rubric (p. 15 of the Course Syllabus) to begin discussing the creation of the documentary.

On Thursday, September 27, 2018 the group will meet in the community with their assigned faculty to accomplish the following (Part 1 continued):

1. Spend time as a group reviewing the community assessment data collected by group members as assigned.
2. Review Windshield Survey data and interview information collected by group members as assigned.
3. Gather in additional community assessment data while in the community (if needed).
4. Go to <http://www.healthypeople.gov> and search for the Leading Health Indicator that relates to the population of interest. Discuss how this information informs the public health nursing diagnosis.
5. Begin adding the assessment data into the ASSESSMENT column in the Population-Based Community Assessment Plan of Care. Upload Draft Population-Based Community Assessment Plan of Care in the assignment area for Part 1.
6. Discuss next steps for documentary creation.
7. Review Population-Based Community Assessment Part 2 information.

Population-Based Community Assessment Part 2:

On Thursday, October 18, 2018 and Thursday, October 25, 2018 the group will meet in the community with their assigned faculty to accomplish the following:

1. If possible, meet/interact with the population of interest in their setting (school, home, health department, etc.)
2. Spend time as a group reviewing the community assessment data collected by group members as assigned in order to create a **Public Health Nursing Diagnosis** for the population of interest.
3. Review, "Public Health Nursing Diagnosis," in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 78-79.
4. Review Garardi, M. (2014). NANDA-I Nursing Diagnosis Suggestions for the Care of Populations Quick Pick List. Retrieved August 18, 2016 from, https://uic.blackboard.com/bbcswebdav/institution/SCS/270_2591/NU385/master/platinum/project2/List%20of%20Community%20Appropriate%20NANDA%20Diagnoses.doc.
5. After creating the Public Health Nursing Diagnosis, review, "The Public Health Nursing Process," in Chapter 2 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 34-35.
6. Review "Public Health Intervention Wheel," in Chapter 2 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 36-41.
14. Review Keller, L. O., Strohschein, S., & Briske, L. (2008). *Population-based public health nursing practice: The intervention wheel*. Public health nursing: Population-centered health care in the community, 186-214, p. 191). Retrieved August 18, 2016 from, http://www.coursewareobjects.com/objects/evolve/E2/book_pages/stanhope/pdfs/Stanhope_Ch09.pdf
7. Discuss interventions at the community level that will be implemented based on the population of interest, community, neighborhood and/or city level data, public health nursing diagnosis and evidenced-based practice.
8. Review "Public Health Nursing Planning and Implementation Process," in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 96-100.
9. Review Minnesota Department of Health (March, 2001). Public Health Interventions: Applications for Public Health Nursing Practice. Retrieved August 18, 2016 from, http://www.health.state.mn.us/divs/opi/cd/phn/docs/0301wheel_manual.pdf
10. Review "Evidence-Based Practice," in Chapter 2 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 44-59. Ensure recommended community level interventions are consistent with evidence-based practice.
11. Complete the ASSESSMENT column in the Population-Based Community Assessment Plan of Care and review with faculty.
12. Add the nursing diagnosis to the NURSING DIAGNOSIS column in the Population-Based Community Assessment Plan of Care.
13. Begin adding the planning and interventions information in the PLANNING/INTERVENTIONS column in the Population-Based Community Assessment Plan of Care. Upload Draft Population-Based Community Assessment Plan of Care in the assignment area for Part 2.
14. Discuss next steps for documentary creation.
15. Review Population-Based Community Assessment Part 3 information.

Population-Based Community Assessment Part 3

On Thursday, November 1, 2018 the group will meet in the community with their assigned faculty to accomplish the following:

1. If possible, meet/interact with the population of interest in their setting (school, home, health department, etc.)
2. Review population of interest, community, neighborhood and/or city level data, public health nursing diagnosis, interventions recommended/implemented, and discuss evaluation.
3. Review "*Public Health Nursing Evaluation*" in Chapter 3 of Garcia, C. M., Schaffer, M. A., & Schoon, P. M. (2014) pp. 100-102.
4. Discuss the evaluation plan for the population of interest based on the assessment, diagnosis, planning/interventions and implementation plan.
5. Complete the PLANNING/INTERVENTIONS column in the Population-Based Community Assessment Plan of Care.
6. Complete population-based community health interventions with the population of interest.
7. Begin adding the evaluation information in the EVALUATION column in the Population-Based Community Assessment Plan of Care. **Note: Final Population-Based Community Assessment Plan of Care is due on Monday, November 19, 2018 at 9:00 a.m.**
8. Discuss next steps for documentary creation.

Population-Based Community Assessment Part 3 (Part 3 continued):

On Thursday, November 15, 2018 the group will meet in the community with their assigned faculty to accomplish the following:

1. If possible, meet/interact with the population of interest in their setting (school, home, health department, etc.)
2. Finalize the evaluation plan for the population of interest based on the assessment, diagnosis, planning/interventions and implementation plan.
3. Complete population-based community health interventions and evaluation with the population of interest.
16. Finalize the evaluation information in the EVALUATION column in the Population-Based Community Assessment Plan of Care. Upload Draft Population-Based Community Assessment Plan of Care in the assignment area for Part 3.
Note: Final Population-Based Community Assessment Plan of Care and Documentary is due on Monday, November 19, 2018 at 9:00 a.m.
4. Discuss next steps for documentary creation.

GUIDELINES FOR CREATING THE DOCUMENTARY**

Population-Based Community Assessment Documentary Guidelines and Rubric:

Each clinical group will identify a population of interest and collect community, neighborhood and/or city level assessment data. A nursing diagnosis will be created and planning will take place to identify and implement interventions for the population of interest at the community level. Evaluation of the interventions by the clinical group will also be completed.

The Population-Based Community Assessment Documentary will include the following information:

- Introduction-1 min.
- Content-10 minutes
 - Description of Population of Interest
 - Description of Community
 - Population Characteristics
 - Vital Signs
 - Determinants of Health Information (Part 1 of Population-Based Community Assessment)
 - Biology
 - Behaviors
 - Physical Environment
 - Social Environment
 - Policy and Interventions
 - Analysis of Population and Community Health Status (Part 2 of Population-Based Community Assessment)
 - Health Statistics
 - Policy and Interventions related to Health Statistics
 - Determining Community Health Priorities
 - Public Health Nursing Diagnosis
 - Interventions
 - Evaluation of Interventions
- Conclusion, Summation, Acknowledgements-1 min.

The documentary is **due on Monday November 19, 2018 at 9:00 a.m.** and will be **presented** to faculty, BSN students, and peers on **Thursday, November 29, 2018 in CLC 412 from 9:00 a.m. – 10:30 a.m.** Please feel free to invite community members/stakeholders to the presentation.

XU Media Lab

Paul Weber from the XU Digital Media Lab will be providing an orientation to Digital Media Lab materials and support for the creation of the documentary in NURS 752 on Wednesday, August 29, 2018 at 2:00 p.m.

To review XU Digital Media Lab services here is the hyperlink: <http://www.xavier.edu/digital-media-lab/>

Grading:

This assignment contributes 35% to the student's grade for the course. Refer to the evaluation rubric for additional guidance.

Privacy and Respect:

While creating a video documentary it is important to keep in mind privacy and respect for those around you. Do not add video images to the documentary that you would not feel comfortable sharing. Any video of other people submitted for this assignment must have explicit permission for the video to be taken and shared (see Video Informed Consent). Do not take video images of others without their explicit permission. If you can capture the thought without video-taping others, avoid video images of others.

**Xavier University
College of Professional Sciences

2018 Fall Semester**

Video Documentary Consent Form

I am a graduate nursing student at Xavier University learning how to complete a population-based community assessment as part of my class requirement. We are taking video images of the assets, strengths, and challenges of the community and will be reviewing the video in class with peers and faculty. The video images will not be shared in any other context other than the class, and only the students in the class and faculty members will see the video. Community members will also be invited to see the completed video documentary on Thursday, November 29, 2018 from 9:00 a.m. – 10:30 a.m. on Xavier Campus, Conaton Learning Center Room 412.

I _____ (first/last name) being of legal age, hereby give permission to Xavier University and its authorized agents to create video images, or voice recordings of me for the purposes of the community assessment. I agree that I shall not receive any compensation for my participation. Xavier University will be allowed to use, reproduce, edit, exhibit, project, display, copyright, publish, and/or resell the video images, or voice recordings for the purpose of broadcast, illustration, instruction, education, publicity, marketing or training in any non-profit manner.

I further agree that my participation in the community assessment process confers upon me no rights to use, ownership or copyright. I release Xavier University, its employees, agents, and assigns from all liability which may arise from any and/or all claims by me or any third party in connection with my participation in the community assessment.

I hereby waive any right that I may have to inspect and/or approve the finished product or products or editorial, advertising, or printed copy or soundtrack that may be used in connection therewith and any right that I may have to control the use to which said product, products, copy and/or soundtrack may be applied.

**NURS 753
Community Nursing and Public Health Policy Practicum
Population-Based Community Assessment
Windshield and Walking Surveys**

The purpose of the **windshield Survey** is to get a “feel” for the community. Using the Community assessment rubric as a guide, decide as a group what you will be looking at in your drive around the community. It is often best to have several group members do this together. Be aware of the community and its history, be discrete and unobtrusive. You may wish to assign members to driver, navigator, observer and recorder. You may also want to revisit some areas at a different time/day. Be thinking about the people in that community—what are they seeing, breathing, experiencing such as obstacles to healthy living (and encouragers).

The purpose of the **walking survey** of your community is to get a closer observation of the community and to listen to community member(s) description/ assessment of their community. In order to do this, your clinical group will have to contact a member of the community. Check with your school nurse, social service agency, or clinic or possibly a place of worship. You will need to explain your assessment project and your purpose. Ask the nurse/clinician/ social service worker to help you identify a community member that might be willing to give you a walking tour of the community. (This tour may need to be a smaller, targeted area within the community).

Before the tour:

1. Decide on the main question you are trying to answer. What are some questions that may be more specific to further explain issues that you have found in your preliminary look at the community (internet / windshield survey)

Once you have your questions, make a checklist of the questions and those things you would like to observe (maybe it is how kids get home from school or afterschool programs or tai chi in the park).

2. Who will go on the walking tour? Each community is different. Find out what number is needed to get the information and is safe (ask your contacts in the community). You may need to split up covering different parts of the community.

3. Map out the area you will be walking (know your surroundings to some extent).

4. Decide a time and date to do the assessment. Are there activities that you want to observe? Be sure to note the time of day and month that you are assessing. Do activities change based on time, date, etc.?

5. Note observations and information that you gained by having a community member guide you.

See: <http://ctb.ku.edu/en/tablecontents/chapter3-section21-main.aspx> for more guidance on windshield and walking surveys.

**NURS 753
Community Nursing and Public Health Policy Practicum Peer Evaluation
For the Population-Based Community Assessment Documentary**

The population-based community assessment process is a group assignment which will culminate in a 10 – 12 minute Documentary that will be shown to Faculty, BSN students, and peers on Thursday, 11/29/2018 from 9:00 a.m. – 10:30 a.m. during seminar. It is expected that all members of the clinical group participate fully in this assignment. Students will evaluate each of their team members on the following.

Give each of your team members a point for the following:

- Participated in the identification of the population of interest; adding valuable ideas and suggestions.
- Participated in the planning of the community assessment; adding valuable ideas and suggestions.
- Gathered assigned data from the internet and reported back to group in timely fashion.
- Participated in the planning and implementation of community-based interventions based on community assessment data; adding valuable ideas and suggestions.
- Participated in the planning and implementation of evaluation activities based on the community-based interventions; adding valuable ideas and suggestions.
- Participated in interviewing at least one community member as assigned.
- Participated in collecting windshield survey data and walking survey data as agreed upon.
- Completed assigned portion of the population based community assessment Documentary and provided it to the appropriate person *on time*.

Team members name	Score (0-5)

Once completed, please provide the completed peer evaluation to your faculty member no later than December 6, 2018 at 9:00 a.m.

2018 Fall Semester**

**NURS 753
Community Nursing and Public Health Policy Practicum
Group Discussion-Leadership**

Attendance and participation in Low Fidelity Simulation (LFS) presentations, student conferences, and community assessment time is expected. Students are expected to show respect to the speakers by being prompt, giving speaker and discussion leader full attention, and participating in activities or discussion. Cell phones and laptops will be silenced and put away during speaker presentations, community time devoted to completing assessment activities, and student conferences. Each student will prepare and bring a relevant NCLEX question to the discussion to share with the group.

Discussions within your clinical group while completing activities related to identifying a population of interest, community assessment, planned community interventions, and evaluation of the interventions are a great opportunity to practice skills of leadership. Each student will be **assigned one aspect of the Population-Based Community Assessment Documentary** in order to lead the clinical group discussion during community assessment time and/or after the LFS speaker's presentation beginning **8/23/2018**. There can be more than one student who leads the discussion in one week. Discussions should include concepts discussed in N752 didactic, application of speakers' content (if applicable), next steps related to group projects (identifying population of interest, community assessment, interventions, evaluations, and diversity assignment) and facilitating a discussion on practicum experiences of group members (e.g. opportunities, challenges, and lessons learned). Faculty will facilitate the assignment of documentary activities on **September 6, 2018** when the clinical group meets in the community for the first time. Discussions during conferences will be approximately **20-30 minutes** in length. **The last opportunity for group discussion will be Thursday, 11/8/2018.**

Group Discussion-Leadership Rubric**

Group Discussion Leadership Rubric	Points	Comments
Student leader was prepared to lead the discussion a. Concepts discussed in N752 didactic that inform next steps for completing the identification of the population of interest, community assessment activities, community interventions, and the evaluation process. b. Discussed documentary progress and next steps based on the information assigned. c. Aware of timely work needs on group project (e.g. identification of population of interest, community assessment activities, interventions, evaluation, and diversity assignment) d. Had prompts prepared for eliciting discussion of practicum settings e. Guided group to connect experiences with didactic content. f. Lead the discussion of NCLEX questions.	/40	
Student leader was aware of time and kept conversation moving in a respectful manner.	/20	
Student leader elicited conversation from all group members, assuring that all were heard.	/20	
Student leader made assignments or reminders for future activity, as appropriate.	/10	
Student leader was professional in appearance and manner.	/10	
TOTAL	/100

NURS 471-Community Health Nursing Practicum

NURS 753 – Practicum for Community Nursing and Public Health Policy

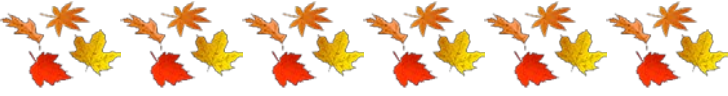

Overview: The Community Nursing Practicum is unique. Clinical instructors will either be onsite or immediately available per cell phone on clinical days and will visit the site regularly. For BSN students, you will have 6 hours at a clinical site each week. MIDAS students will have 5 hours at a clinical site each week. In addition, you will have time (usually on Thursday morning) for your group’s community or population health project, debriefing on your community experience, and practicing community/population health skills or interprofessional collaborative skills in a simulated lab setting. Each lab will have a specific focus with preparation expected beforehand.

Week	Tuesday BSN Clinical Day 6 hours	Wednesday MIDAS Clinical Day 5 hours	Thursday (9:00 a.m. – 12:00 p.m.) Kennedy Theatre: Conaton Learning Center -CLC 412 Assigned seating areas for each clinical group – sit with your clinical instructor
Week 1	<p>8-21-18 8AM-10:30AM Arrupe Room in Gallagher Student Center (& 12P-2P in Cohen Lab)</p> <ul style="list-style-type: none"> -Review syllabus and course calendar -Meet with your clinical instructor, exchange contact information -decide on simulation preferences -Get information on clinical sites -Discuss community project -Review and complete CHD forms 	<p>8-22-18 9A – 12P (Cohen 190)</p> <ul style="list-style-type: none"> ✓ Go through the syllabus with Dr. Bohnhoff ✓ Meet with your practicum faculty ✓ Exchange contact information and get information about your first practicum placement ✓ Population-Based group exercise ✓ Discuss SIMs (Hospice vs. Non-Hospice) ✓ Complete CHD Confidentiality Form ✓ Injection skills practice with practicum faculty 	<p>8-23-18: School Based Health and Screening (3 hour lab) CLC 412 Kennedy Auditorium (with breakout sessions as indicated below)</p> <p>Prior to attending this lab please review the following materials on Canvas:</p> <ul style="list-style-type: none"> -CPS Screening Materials: Hearing, Vision, Asthma (ACT), and student encounter form -Also, read Confidentiality P&P document, Confidentiality Responsibility Document, Employee Security Agreement and Notice of Privacy Practices.
