Instructor in Mathematics; Algebra or Geometry.

REV. HENRY J. MUYSEN
Instructor in Latin; Latin.

MR. JAMES E. O'CONNELL, A.B.
Instructor in History; American History.
ANNOUNCEMENT

OF

EXTENSION COURSES

At various times in its history St. Xavier College has responded to demands made upon it to expand its work to meet the needs of the community. Thus in 1894 a series of extension lectures was inaugurated, and in 1896 certain graduate courses were begun and continued for some years with advantage. In the same spirit in 1911 St. Xavier opened up the Department of Commerce which has since grown to be a strong and well-organized department of college work. The Summer School, organized in 1914, has continued during the past four years to offer a selected number of college courses to members of teaching Sisterhoods. The work of the Department of Commerce and of the Summer School will be found in detail in separate numbers of the Bulletin.

In the fall of the present year it was determined by the President of the College with the concurrence of the Board of Trustees to offer a certain number of extension courses through which the opportunity for college work during the school
year might be placed within reach of the members of teaching Sisterhoods in Greater Cincinnati. Applications for such work had been sufficiently numerous to point out the need of such an undertaking, and accordingly it was deemed advisable to announce the opening of these courses without further delay.

Having in mind the special situation of those who are likely to be students in these courses, arrangements have been made to hold the classes for the most part on Saturdays. The first semester will begin on Saturday, October 6th, and close Saturday, January 26th. The second semester will begin on Saturday, February 2d, and close on Saturday, May 18th. Classes will not be held on Saturday, December 8th, or on the Saturday in Christmas week, (December 29), or on Easter Saturday, March 30th.

The class hours will be from 9 a.m. to 12 m.

These classes will be held at St. Xavier School, Sycamore street, between Fifth and Sixth streets. Registration on Wednesday, October 3d, and Friday, October 5th, between 3 and 5 p.m.

College credit to the extent marked on the schedule of courses below will be given for the successful completion of each course (including the final examination) to students who are already qualified for College Entrance. Attendance at these classes will also be counted for the requirement of residence for a degree.

Credit can not be given for more than two subjects taken in the Saturday classes during any
one year. Students not seeking credit and already registered for one or two courses, may attend the classes of a third course if in the judgment of the professor they are able to profit thereby.

Except as otherwise specified in the schedule of courses given below, a fee of five (5) dollars will be charged for each course.

The attention of all applicants is called to the following:

Registration for these courses will take place on Wednesday, October 3d, and Friday, October 5th, from 3 to 5 p.m., or the applicant may register by mail any time before October 6th, by using the blank provided at the end of this Bulletin.

The entrance requirements for students taking these courses for College credit will be the same as the requirements for entrance to the Freshman class of St. Xavier College.

Candidates for admission to the Freshman Year must present entrance credits amounting to sixteen (16) units. A unit is a series of recitations or exercises in a given subject pursued continuously throughout the school year. The number of class exercises required in a week for each unit shall, in general, be five. Double periods are required for laboratory courses.

Not less than a full unit will be accepted in the first year of any language. Half-units will be accepted, but only when presented in addition to integral units in the same subject. Any two of the biological sciences (Physiology, Botany, Zoology) may be combined into a continuous year’s course equal to one unit.

Candidates for admission to St. Xavier College from other institutions of collegiate rank, which offer the same or equal courses of study, will be granted the same standing as at the former institution upon presenting in advance
of registration (1) a certificate of honorable dismissal; (2) an official transcript of college credits, with specification of courses and year when taken, hours and grades; (3) an official certified statement of entrance credits and conditions, showing the length of each course in weeks, the number of recitations and laboratory exercises each week, the length of recitation and the mark secured.

No student will be admitted to the College as a candidate for a degree after the beginning of the Senior Year.

Students who have pursued an entire course as prescribed and have successfully passed their examinations are recommended to the Trustees for the first academic degree in course. Such recommendations are ordinarily acted upon and the degrees are conferred at Commencement, at which time the students receive diplomas from the President of the College.

A student's grade of scholarship in each of his subjects is determined by the combined results of examinations and class work.

The grades assigned are the following: A, excellent; B, good; C, fair; D, barely passing; E, conditioned; F, failed; I, incomplete; X, absent from examination. These grades are not given out to the students by the professors, but are regularly issued from the office of the Dean of the College.
SCHEDULE OF COURSES

Education. E 3-4. The principles underlying all education, and the relative values of different curricula when tested by these principles. Lectures, discussions, required reading and reports.

Educational theory and practice, general and special; comparative study of the principal systems of education. Lectures, required readings and discussions. Two credits.

Latin. E 2. Livy. Selections from Books XXI and XXII; a study of Livy's style; elements of change from the prose of the Ciceronian age. Two credits.

Monday, Wednesday and Friday, at 8:15. Six credits.

N.B.—A special fee of fifteen (15) dollars is charged for this course.

Philosophy. E 3-4. Psychology. Beginning with an explanation of the cerebro-spinal nervous system, this course leads on to the study of the phenomena of sensuous life; sense-perception, imagination and memory, sensuous appetite, movement and feeling; the phenomena of rational life: the origin and development of intellectual concepts, rational appetency, free-will and determinism. Two credits.

Physics. E 1. General Physics. Mechanics; equilibrium and motion of solids, liquids and gases; molecular forces, elasticity and capillarity; beat and sound. Lectures, laboratory work. Two credits.
COURSES GIVING CREDIT FOR COLLEGE ENTRANCE ONLY.

History. E III. American History. This course embraces one semester's work in American political, social and institutional history with special reference to the period since 1760. Text: Montgomery's Essentials, supplemented by required collateral reading.  
One-half unit.

One unit.

One unit.
The name and number of the course should be taken from the list of courses in this bulletin.
