HISTORICAL SKETCH

The history of St. Xavier College begins on October 17, 1831, when the Right Rev. Edward D. Fenwick, O.P., D.D., the first Bishop of Cincinnati, opened what, after the fashion of the times, was called "a Literary Institute" for the higher instruction of youth. This was a daring undertaking for the times, since the census of 1830 gave Cincinnati a population of less than 25,000, and of that number Catholics were a small and not very influential minority.

The new institution bore the classic name, "The Athenaeum," and in the prospectus issued we are told that the "College course will embrace the Greek and Latin authors—both historians and poets—which are usually read; the Hebrew, Spanish, French and English languages; the various branches of the Mathematics; Reading, Writing, Geography and the use of the Globes." The carrying out of this fairly ambitious program was entrusted to the diocesan clergy from 1831 to the summer of 1840. Their efforts met with considerable success, but the growing needs of the diocese in other directions made it difficult to staff the College with members of the diocesan clergy, and the Right Reverend John B. Purcell, the successor of Dr. Fenwick, saw that the stability and progress of the institution would be better provided for by entrusting it to the care of a religious order.

Accordingly he applied to the Provincial of the Society of Jesus in St. Louis and on receiving a favorable reply turned over to the Jesuits "forever, on condition that they should be held ever sacred for church and school, the College, Seminary and Church, with the real estate on which these buildings, which I now occupy, are located—that you may have there a college and a parish church to be served by your Society, in perpetuity."

The Jesuits took over the institution on October 1, 1840. The name was then changed to St. Xavier College, though the building continued to be called "The Athenaeum" until it was removed fifty years later to make room for a new structure. The Reverend John Anthony Elet, S.J., was the first president of the reorganized College. A charter of a temporary kind was granted to the College in 1842 by the General Assembly of Ohio, and a perpetual charter in 1869.

Under the presidency of Father Elet and his immediate successors St. Xavier College made rapid progress. It was originally conducted as a boarding school and had a very considerable patronage in the States of the West and South. But the very limited campus space in a growing city soon made it impossible to continue this feature of the
College. The dormitories were therefore abolished after the summer of 1854 and since that time St. Xavier has appealed more to its own immediate vicinity for patronage.

The years 1863 to 1865 were years of hard struggle for St. Xavier. Many causes contributed to this effect, not the least of which were the cholera epidemic, the Know-Nothing movement and the Civil War. But better times came for the College when the war was ended. Property had been secured in 1863 on the corner of Seventh and Sycamore streets, and on this site in 1867 was erected the Faculty building, called the Hill Building after the Reverend Walter Hill, the president of the College at the time. This additional accommodation served the needs of the institution for the next twenty years, but again the need of expansion was felt and in 1885 the Moeller Building on Seventh street to the rear of the Hill Building was erected by the Reverend Henry Moeller, president of the College from 1884 to 1887.

St. Xavier College celebrated its golden jubilee in 1890, counting fifty years from 1840, the year in which the Jesuits assumed control. The following year the class room building facing on Sycamore street was built as well as the College Chapel and Memorial Hall. At the same time the old Athenaeum was torn down after having served for college purposes for sixty years.

Under the presidency of the Reverend Alexander J. Burrows, extension lectures were begun in 1894, and in the fall of 1896 a limited number of graduate courses were inaugurated. These lectures and graduate courses were carried on successfully for some years and extended the influence of the College in the community. But the more pressing needs of other departments and the limited means at the disposal of the Faculty made it seem advisable to discontinue such work until greater resources can be commanded.

During the greater part of its history, therefore, St. Xavier College, has confined its efforts to maintaining a standard college, with the high school classes preparatory to it. In this way it could, it seemed, with the resources at its command, be best able to answer the needs of those who look to it for guidance.

In the fall of 1911 a Department of Commerce and Economics of college grade was added to the work offered by St. Xavier. At the same time a course in Journalism was likewise begun. At the fall session of 1918 a course in Sociology was added to this Department. The classes in these subjects are conducted in the evening. The course in Journalism was, however, discontinued in 1916. Summer courses in a limited number of subjects have been carried on since the summer of 1914. These classes are attended by members of the teaching Sisterhoods of the vicinity for whom they were originally designed. In the fall of 1918 Extension courses for the same class of students were established. These courses are conducted on Saturday mornings and are of college grade. On October 1, 1918, a unit of the Students' Army Training Corps was established with 232 students inducted into the service. The academic instruction in the College was adapted to the needs of the S. A. T. C. until the disbanding of the unit on December 22d. In the year 1919, at the suggestion and on the advice of prominent Alumni, mostly of the legal profession, it was determined to add a Department of Law to begin with the fall semester of 1919.

While a situation such as the College has occupied in the very heart of the city has many advantages in the matter of accessibility, it has had also the disadvantage of preventing the ready expansion of accommodations for buildings and campus. The Faculty was aware of this drawback in the location and as early as 1847 an attempt was made to find more room by locating the Preparatory Department in the so-called Purcell Mansion on Walnut Hills. Here the work of these classes was conducted for two years under the direction of the Reverend George A. Carroll, later president of St. Xavier and eventually first Bishop of Covington. But this undertaking was premature, and for the means of communication in those days the situation was too remote. The Preparatory Department was therefore brought back to the city again after two years. Nothing further was done in the matter until the year 1906 when the Reverend Albert A. Dieckes, S.J., the president at the time, purchased property at the intersection of Gilbert and Lincoln avenues on Walnut Hills. This property with the building standing on it was used for purposes of a Branch High School until the beginning of 1912. It was realized, however, that a better site would have to be chosen to give room for the expansion which St. Xavier had the right to look forward to and the Branch High School was moved to the building and grounds of the old Avondale Athletic Club which had been purchased the previous summer.

This property, on which the New St. Xavier College is located, is situated on Victory Boulevard, between Winding Way, Dana and Herald avenues in Avondale. It is within easy reach of several trunk car lines, and, with the opening of the new rapid transit system, will become more readily accessible to all points of the city and surrounding territory. There is ample space for the various college buildings on the higher parts of the grounds. The first of these buildings, the Alumni Science Hall, was completed and ready for the college students at the opening of the fall session of 1920. This building is a gift of the Alumni of St. Xavier to express in a fitting manner their appreciation of St. Xavier College and to establish a lasting memorial of the Diamond Jubilee of the institution. It is
from every point of view a splendid unit of the College. It provides ample lecture rooms and laboratories not only for the present needs but for the future expansion of the College; and these rooms and laboratories are furnished and equipped with the latest and most approved scientific appliances. Its architectural design and symmetry mark it as one of the most distinguished buildings of the city.

Another building, which was completed and ready for occupancy in November, 1920, is the Administration Building, Hinkle Hall. This is the munificent gift of Mrs. Frederick W. Hinkle, who by this generous donation has ensured the ultimate carrying out of the plans for the Greater St. Xavier College in Cincinnati. Hinkle Hall is the central unit of the group of college buildings and has a frontage of 150 feet. Besides the necessary administrative offices, it contains accommodations for a faculty of fifty, with dining room, chapel, recreation rooms and a large roof garden from which a magnificent view of the college grounds and surrounding parts is obtained. In architectural beauty this building merits its place as the center of the college group.

There is a very extensive campus with base ball and football fields and tennis courts situated in the lower grounds. A stadium inclosing a running track and football field, known as Corcoran Field, was added October, 1921. To the north and south, through the generosity of the Bragg estate, from which the College purchased the property, the city has acquired great stretches of land for park purposes. The Park Board is proceeding with its happily conceived idea of constructing wide boulevards to connect the different city parks. For many miles there stretches a double boulevard, one branch skirting the base of the hill immediately east of the Campus, and the other running along the western edge of the College property. The New St. Xavier College is thus situated in a picturesque spot, surrounded by parkways, yet in a location which was chosen chiefly because at the time it was, and still remains in the very center of Cincinnati and its suburbs.

The opening of the Fall Session of St. Xavier College in 1919 marked an epoch in the history of the institution. A complete separation of the College students from the High School students was established. The High School classes were concentrated at the old St. Xavier on Seventh and Sycamore streets. There, too, the evening courses continued to hold their sessions. The College classes were transferred to the Avondale Branch High School, and in September, 1920, they were permanently located in their new building.

In September, 1924, the first unit of a series of dormitories to accommodate students from distant places was opened. This building has been erected through the efforts of St. Xavier Alumni. It is hoped that by further generosity of friends of Catholic Education, the remaining dormitory units will soon be provided.

CHARTER

A true Copy of an Act to incorporate the St. Xavier College, Cincinnati, Ohio, U. S. A., entitled:

An Act to Incorporate the St. Xavier College.

Section 1. Be it enacted by the General Assembly of the State of Ohio that there shall be and is hereby established in the City of Cincinnati, an institution for the education of white youth in the various branches by the name and style of the trustees of St. Xavier College and John B. Pureell, J. A. Elet, L. M. Pin, G. T. Gleizal and Edward Pureell, of Cincinnati, and their associates and successors be and they are hereby appointed trustees of said institution and constituted a body politic and corporate with succession for thirty years, with all powers and privileges incident to similar institutions to be known and distinguished by the name and style of the Trustees of St. Xavier College.

Section 2. That said Trustees by the incorporate name as aforesaid shall be competent to sue and be sued, plea and be impleaded in all courts of law or equity, may have a common seat and alter the same at pleasure and shall fill all vacancies in their body occasioned by death, resignation, removal or neglect for more than one year to attend the duties of this trust.

Section 3. That said Trustees or a majority of them when met shall constitute a board; they shall have power to appoint a President, Secretary and Treasurer and such other officers and agents as they may deem proper and necessary and to prescribe their duties, and to make, ordain, and establish such by-laws, rules and regulations for conducting the affairs of said institution as they may deem proper; provided the same be not inconsistent with the Constitution and Laws of the United States and of this State.

Section 4. That the said Trustees in their corporate capacity shall be capable of receiving and acquiring by purchase, devise, gift, grant, bequest or otherwise, property, real, personal or mixed, to be used, improved, expended or conveyed for the purposes of the trust, provided the amount shall not exceed the sum of Forty Thousand Dollars and that the funds of said institution never be used directly or indirectly for the purposes of Banking.
Section 2. That the trustees of any such college, by a resolution entered upon their minutes at a regular meeting, or at a special meeting convened for that purpose, may accept the provisions of this act a copy of which resolution, certified by the president and secretary of the Board of Trustees, and authenticated by the corporate seal, if there be one, shall be deposited and recorded in the office of the Secretary of State; and thereupon the said college shall become, and thenceforth remain, a corporation, by such name as the trustees in their resolution aforesaid may select.

Section 3. That every college so incorporated shall be capable of holding, receiving and acquiring, by grant, gift, devise, or bequest or any form of purchase, real and personal property, money, and choses in action, to such amount as shall be necessary and proper for the purpose of maintaining said college and carrying on its legitimate business, and no more, to be used, improved, expended, conveyed or transferred, for the purposes or advantage of its corporate duty, and trust, and for any church and chapel connected therewith.

Section 4. That every such college shall be competent to sue and be sued, plead and be impleaded by its corporate name, as aforesaid, in all courts of jurisdiction, to contract and be contracted with, and to buy, sell and convey, or release, by deed, or other method of assurance, real and personal property, and choses in action; to have a common seal, and the same at pleasure to break, alter and renew; and all the vacancies in the board of trustees (which shall consist of seven members) occasioned by death, resignation, removal from the county in which the college is situated, or by neglect for the space of one year, to attend the meetings of said board, may be filled by the choice of the remaining trustees or trustee. But no qualification shall be required for the office of trustee beyond actual residence in the county within which the college is situated, and citizenship of the United States.

Section 5. That the Trustees of such college shall have power to appoint such Officers, Professors and Teachers as may be necessary and proper for the instruction and government of the Institution and prescribe their duties and the President of the Institution shall be a member of the Board of Trustees.

Section 6. That the said Trustees shall have power to confer on those whom they may deem worthy, such Honors and Degrees as are usually conferred by Colleges and Universities.

Section 7. That such Trustees shall have power to elect honorary members who shall have seats in the Board of Trustees and be admitted to take part in the discussions therein but not to vote.

Section 8. That the Trustees, their associates and successors shall be held individually liable for all debts of said Institution.

Section 9. Any future Legislature shall have the right to alter, amend or repeal this act provided such alteration, amendment or repeal shall not affect the title of any property acquired or conveyed under its provision.

March 5, 1842.

RUFUS P. SPAULDING,
Speaker of the House of Representatives.

L. FARAN,
Speaker of the Senate.

Secretary of the State's Office, Columbus, Ohio, April 28, 1842, I hereby testify the foregoing act to be a true copy from the original rolls on file in this Department.

J. SLOANE,
Secretary of State.

A true copy of the Act of the Legislature and entitled:

AN ACT

To Provide for the Incorporation of St. Xavier College.

Section 1. Be it enacted by the General Assembly of the State of Ohio, that the trustees of any college heretofore incorporated by special act for a limited time, the capital stock of which is not divided into shares, may cause their college to be re-incorporated with perpetual succession, as hereinafter provided.
Section 7. That the trustees shall be liable individually for the debts of their college so re-incorporated, in excess of the value of its property and effects.

Section 8. That the trustees of any such college, as is described in the first section of this act, in office by authority of the special act of incorporation, shall have power to elect or provide for the election of the first board of trustees hereby constituted, except that in all cases where by the special act of incorporation, or by the terms of any endowment or accepted trust, the power of electing or appointing all or any member of the trustees, has been conferred on any court, corporation, company, or association, or in any officer, founder, donor, visitor, or any individual or class of individuals, that method shall be observed and continued, and nothing herein shall in any wise affect the colleges or universities, intended by the act entitled an act to provide for the perpetuation of boards of trustees, and the appointment of visitors of universities and colleges, passed on the thirteenth day of May, in the year eighteen hundred and sixty-eight.

Section 9. This act shall be in force from the day of its date.

F. W. THORNHILL,
Speaker of the House of Representatives.

Passed May 7, 1869.

J. C. LEE,
President of the Senate.

UNITED STATES OF AMERICA, OHIO, \{ ss. \}
OFFICE OF SECRETARY OF STATE.

I, ISAAC R. SHERWOOD, Secretary of State of the State of Ohio, do hereby certify that the foregoing is a true copy of an act therein named, passed by the General Assembly of the State of Ohio, on the seventh day of May, A.D. 1869, taken from the original rolls on file in this office.

In testimony whereof, I have hereunto subscribed my name and affixed the seal of this office at Columbus, the twenty-seventh day of May, A.D. 1869. ISAAC R. SHERWOOD,
Secretary of State.

NOTE: St. Xavier College was incorporated by the General Assembly of the State of Ohio in 1842, and on May 9, 1869, the aforesaid act was passed which secures to the institution a perpetual charter and all the privileges usually granted to universities.
SYSTEM OF EDUCATION

The educational system in use at St. Xavier College (substantially the same employed in two hundred and twenty-seven educational institutions conducted by the Society of Jesus in nearly all parts of the world) is guided by the principles set forth in the Ratio Studiorum, a body of rules and suggestions outlined by the most prominent Jesuit educators in 1599, revised in 1832, and attended up to the present day with unailing success.

Truly psychological in its methods, and based upon the very nature of man's mental processes, it secures on the one hand that stability so essential to educational thoroughness, while on the other it is elastic and makes liberal allowance for the widely varying circumstances of time and place. While retaining, as far as possible, all that is unquestionably valuable in the older learning, it adopts and incorporates the best results of modern progress. It is a noteworthy fact, however, that many of the recently devised methods of teaching, such as the Natural, the Inductive and similar methods, are admittedly and in reality mere revivals of devices recommended long ago in the Ratio Studiorum.

As understood by the Jesuits, education in its complete sense, is the full and harmonious development of all those faculties that are distinctive of man. It is more than mere instruction or the communication of knowledge. The requirement of knowledge, though it necessarily pertains to any recognized system of education, is only a secondary result of education itself. Learning is an instrument of education, which has for its end culture, and mental and moral development.

Consonant with this view of the purpose of education, it is clear that only such means, such as Science, Language and the rest, be chosen both in kind and amount, as will effectively further the purpose of education itself. A student can not be forced, within the short period of his school course and with his immature faculties, to study a multiplicity of the languages and sciences into which the vast world of knowledge has been scientifically divided. It is evident, therefore, that the purpose of the mental training given is not proximately to fit the student for some special employment or profession, but to give him such a general, vigorous and rounded development as will enable him to cope successfully even with the unforeseen emergencies of life. While affording mental stability, it tends to remove the insularity of thought and want of mental elasticity which is one of the most hopeless and disheartening results of specialization on the part of students who have not brought to their studies the uniform mental training given by a systematic high school course. The studies, therefore, are so graded and classified as to be adapted to the mental growth of the student and to the scientific unfolding of knowledge. They are so chosen and communicated that the student will gradually and harmoniously reach, as nearly as may be, that measure of culture of which he is capable.

It is fundamental in the Jesuit System that different studies have distinct educational values. Mathematics, the Natural Sciences, Language, and History are complementary instruments of education to which the doctrine of equivalents can not be applied. The specific training given by one can not be supplied by another. The best educators of the present day are beginning to realize more fully than ever before that prescribed curricula, embracing well-chosen and co-ordinated studies, afford the student a more efficient means of mental cultivation and development. This, however, does not prohibit the offering of more than one of such systematic courses, as for instance, the Classical and the Scientific, in view of the future career of the individual. While recognizing the importance of Mathematics and the Natural Sciences, which unfold the interdependence and laws of the world of time and space, the Jesuit System of education has unwaveringly kept Language in a position of honor, as an instrument of culture. Mathematics and the Natural Sciences bring the student into contact with the material aspects of nature, and exercise the deductive and inductive powers of reason. Language and History effect a higher union. They are manifestations of spirit to spirit, and by their study and for their requirement the whole mind of man is brought into widest and subtlest play. The acquisition of Language especially calls for delicacy of judgment and fineness of perception, and for a constant, keen and quick use of the reasoning powers.

Much stress is also laid on mental and moral philosophy, as well for the influence such study has in mental development, as for its power in steadying the judgment of the student in his outlook on the world and on life. Rational Philosophy, as a means of developing young manhood, is an instrument of strength and effectiveness.

But to obtain these results, Philosophy must be such in reality as well as in name. It must not content itself with vague groping after light, with teaching merely the history of philosophy; detailing the vagaries of the human mind without venturing to condemn them; reviewing the contradictory systems which have held sway for a time without any expression of opinion as to the fatal defects which caused them to be discarded. It must do more than this. It must present...
a logical, unified, complete system of mind-culture in accord with the established laws of human thought; it must take its stand on some definite propositions expressive of truth; it must rise to the dignity of a science. With such a definite system to defend against attack, the mind becomes more acute and plastic, the logical powers are strengthened, the value of a proof is properly estimated, the vulnerable points of error are readily detected, and truth comes forth triumphant from every conflict of mind with mind.

Finally, the Jesuit System does not share the delusion of those who seem to imagine that education, understood as enriching and stimulating the intellectual faculties, has of itself a morally elevating influence in human life. While conceding the effects of education in energizing and refining the student's imagination, taste, understanding and powers of observation, it has always held that knowledge and intellectual development, of themselves, have no moral efficacy. Religion alone can purify the heart and guide and strengthen the will. This being the case, the Jesuit System aims at developing side by side the moral and intellectual faculties of the student, and sending forth into the world men of sound judgment, of acute and rounded intellect, of upright and manly conscience. It maintains, that to be effective, morality is to be taught continuously; it must be the underlying base, the vital force supporting and animating the whole organic structure of education. It must be the atmosphere that the student breathes; it must suffuse with its light all that he reads, illuminating what is noble and exposing what is base, giving to the true and false their relative light and shade. In a word the purpose of Jesuit teaching is to lay a solid substructure in the whole mind and character for any superstructure of science, professional and special, as well as for the upbuilding of moral life, civil and religious.

MORAL AND RELIGIOUS TRAINING

In its moral and religious training the College aims at building the conscience of its students for the right fulfillment of their civil, social and religious duties. There is insistence on the cultivation of the Christian virtues which operate for this fulfillment; and, as the only solid basis of virtue and morality, thorough instruction in the principles of religion forms an essential part of the system. Students of any denomination are admitted to the courses, but all are required to show a respectful demeanor during the ordinary exercises of public prayer. The Catholic students are required to attend the classes in Christian Doctrine, to be present at the chapel exercises, to make an annual retreat, and to approach the Sacraments at least once a month.

LIBRARY

During the past year, the College gratefully acknowledges the gift of the Library of the late Charles B. Fitzgerald. Generous friends have also given over $100,000 for the new Library Building now under construction.

The College Library is classified according to the Dewey decimal system, and contains about sixty thousand bound volumes. The works are in the main well selected; many of them valuable and rare. Among the latter may be mentioned a “Universal History,” translated from English into French, in one hundred and twenty six volumes; the “Classis Latina,” in one hundred and fifty volumes; the Greek and Latin Fathers in one hundred and twenty five volumes; Bibles of various dates and in various languages, with a copy of the first edition printed in America; several specimens of 15th century printing, one bearing the date of 1468; a quarto manuscript of the Homilies of St. John Chrysostom on Matthew and John (Latin translation), done in Gothic characters on parchment and illuminated, date, 1174.

A general classification of the works is as follows:

The Alumni Science Hall is the gift of former students of the College. It was erected during the year 1920 at a cost of over $110,000. The building is two stories in height, with outside dimensions of 142 feet, 4 inches by 61 feet. It contains six recitation rooms, laboratories and lecture-rooms for physics, chemistry and biology, offices and waiting-room, all thoroughly up-to-date and splendidly equipped. The equipment is the gift of the Knights of Columbus of the State of Ohio, and is valued at $25,000.

HINKLE ADMINISTRATION BUILDING

The Administration Building, known as "Hinkle Hall," is the result of the generosity of Mrs. Frederick Hinkle, of Cincinnati. It was erected at a cost of $200,000, work being started on it simultaneously with the Science Building. It is a three-story Tudor Gothic structure, having a frontage of 157 feet, 4 inches and a depth of 96 feet. It contains five suites and thirty-six single living rooms for the faculty, besides the faculty chapel, recreation rooms and libraries, offices and parlors for administration purposes.

Both the Alumni Science Hall and the Administration Building are absolutely fire-proof, with concrete floors throughout. A new method of construction, guaranteed to reduce vibration and to render the buildings sound-proof, has been used. Both buildings were designed by Steinkamp & Brother and were erected by the Stone-Webster Construction Company and the Leibold-Farrell Building Company.

RESIDENCE HALL

Elet Hall is a dormitory intended for the accommodation of out-of-town students. It provides students with board and lodging at reasonable rates. The discipline of the Hall is under the direct control of the faculty, and conditions are maintained conducive to earnestness of application to school work. All out-of-town students attending the College of Arts and Science are required to reside either with close relatives or in Elet Hall, if there is room in this dormitory. While the school authorities, in case the dormitory is filled, will assist students from a distance to find suitable homes at reasonable rates for board and room, they will not consent to act as guardians, nor in any way hold themselves responsible for the conduct of these students, when not actually under College supervision.

Elet Hall is on Dana avenue and Winding Way, being one of a group of dormitories to occupy the Avondale section of the College grounds. It contains single rooms and double rooms. The rooms are heated by steam, lighted by electricity and equipped with the necessary furniture, except towels and blankets, which must be supplied by the student.

The government of the Hall is intended to develop in the residents habits of self restraint and of personal responsibility. The Director of the Hall is a priest belonging to the faculty.

Room Reservation: Rooms are reserved in the order of application. A deposit of $10.00 must accompany the verbal or written application for a room. In case a student fails to occupy a room after reservation, the deposit will not be returned, unless notice of withdrawal is received before August 15th.

EXPENSES OF RESIDENCE AND BOARD IN ELET HALL

| Single room, per semester                  | $100.00 |
| Double rooms, per semester                | 75.00   |
| Board per semester, eighteen weeks        | 225.00  |

Payments are to be made semi-annually, in advance.

RECREATION HALL

This building was formerly used as a club house by the Avondale Athletic Club, and since its purchase by St. Xavier College up to September, 1919, as a branch of St. Xavier High School. Since that
date it has been used as a reading room for classes of the College of Liberal Arts and for recreation purposes.

GYMNASIUM

The Gymnasium, known as Memorial Hall, is situated at Seventh and Sycamore streets. The main floor measures 90 by 52 feet. There are hot and cold shower baths conveniently placed, two handball and basket ball courts and such equipment as is usually found in modern gymnasiums. A stage is built at one end of the main hall equipped with the latest theatrical appliances and lighted by electricity. It is furnished so as to make a most attractive auditorium. This hall is used for dramatic events, public debates and entertainments, and all general assemblies of the students. Plans are being drawn for a new gymnasium at Avondale.

ATHLETICS

Board of Control. Student activities in all departments of athletics, which are encouraged by the College authorities in proportion to their importance, are under the control of an Athletic Council, consisting of representatives chosen from the Faculty, the Alumni Association, and the student body of all departments.

THE CAMPUS

The college campus was formerly the park and athletic field belonging to the Avondale Athletic Club and is situated between the Administration Building and Recreation Hall. These buildings are situated on high level plateaus to the east and west of the campus, which thus occupies a broad valley, presenting an ideal field with gridirons, base ball diamonds, tennis courts and every facility for out-door athletics. A beautiful concrete stadium, with running track and gridiron, was completed and dedicated October, 1921.

NEEDS OF THE COLLEGE

St. Xavier College is now bringing its ninety-third year of existence to a successful close. While venerable in point of age and traditions, and in the long roster of distinguished men whose names, once writ upon its students' register, have become noted in Church and State, in public and professional life, the College is still youthful in vigor and energy, in its desire to meet and best serve the ever-changing needs and conditions of modern life.

While passing more than once through periods of financial stress, St. Xavier has thus far succeeded in adjusting its expense budget to its revenues. To any one familiar with the large endowments of non-Catholic institutions, it is a matter of surprise that Catholic colleges and high schools, with their generally scant incomes, can manage to exist, and the surprise disappears only when we recall that their professors give their services without salary.

But even with this advantage, it must be evident that an unendowed college is hampered in many ways. New buildings must be erected, old ones repaired, new scientific apparatus and other equipment must be secured, and professors for special work and technical branches engaged. In spite of all obstacles, St. Xavier has forged ahead, and relying largely on Providence, is now planning a greater St. Xavier which will be worthy of the progressive metropolis and people for whose benefit it is projected.

The Jesuit members of the Faculty give their time, training and ability in teaching to the city without salary or other recompense beyond personal support. For more than eighty years the Faculty of St. Xavier have been devoting themselves in this manner to the people of Cincinnati, and they will continue to do so in the future. This fact explains how it is that St. Xavier could have established and maintained its departments as it has done, since the income derived from tuition in the academic and collegiate departments is necessarily very small. Services without salary, and economy in administration, explain the situation.

If, however, the College is to grow and meet the demands that are made upon it, the funds for such development must in large part be furnished by public-spirited citizens. For, on the one hand, the small surplus from tuition charges is not sufficient for any notable advancement and, on the other, money-making can not be a motive with the Faculty of the College or any like institution. Hence neither high rates in tuition can be considered, nor can the betterment of financial conditions resulting from unwise economy in equipment be contemplated. Well directed economy and prudent administration will succeed in conducting the College when once it is fully established, but funds for the grounds, buildings and equipment must come from other sources than those now under the control of the College.

Whoever feels within him the noble prompting to strive for the uplifting of his fellow-men will scarcely find richer returns for his investments than in the cause of Catholic higher education. The world-long struggle between truth and error is now keenest in the intellectual field, and truth can only hope to win, if its champions are well equipped with all the best weapons of modern learning and research. We have confidence in our cause; let us show that we are willing to make sacrifices for it.

Persons of benevolent intentions sometimes hesitate to give needed assistance to colleges, under the mistaken impression that
such benevolence aids only the sons of the wealthy, who should be able to provide for themselves. As a matter of fact the majority of students in our Catholic colleges and high schools are the children of parents who are making great sacrifices and depriving themselves of many comforts to give their sons a Catholic higher education. The number of wealthy students in our colleges is generally comparatively small. There is an abundance of talent and ambition amongst our Catholic youth, but only a small portion of it is now being developed to the advantage of society. Nor can we hope that this wasted and unused talent and ability will be utilized until our men and women of means learn to appreciate the importance of higher education to Church, state and individual and at the same time realize how many are hindered from attaining to intellectual eminence by lack of opportunity.

To be practical, we hope that the large debt of St. Xavier will soon be cancelled, its needed buildings erected, bursars and scholarships founded, and, better still, endowments made, so that no bright, ambitious graduate of our parochial schools may be barred, for lack of means, from a Catholic higher education.

BEQUESTS

Gifts to the College may take the form of scholarships, of professorships, of additions to the material equipment, or of contributions to the permanent endowment fund. Special conditions may, of course, be attached to any gift.

FORM OF BEQUEST

I give and bequeath to the Trustees of St. Xavier College of Cincinnati, a corporation established by law in the State of Ohio, the sum of $... to be invested and preserved inviolably for the endowment of St. Xavier College, located at Cincinnati, Ohio.

STUDENT ORGANIZATIONS

Social Activities. College life must include the development of the social side of every student’s character. Marked initiative, savoir faire and leadership in organized religious and social movements for the common welfare of his fellows, are qualities expected of college men generally. For this purpose the college student organizations and activities furnish splendid opportunity.

However, be it said, that with regard to all forms of college activities the policy of the Faculty has always been that the student’s first duty in college is attention to study, and that no other student activity should be allowed to interfere with this main purpose of college life. For this reason student organizations must have the approval of the Faculty.

ELIGIBILITY RULES

Students taking part in dramatic performances, public debates, oratorical or elocution contests, or athletic events, and those who are appointed assistants on the staff of the College journals, as well as all officers of student organizations, are subject to the following eligibility rules: (1) They must have no conditions and no failures; (2) They must have attained a weighted average of at least C (75) in the previous semester or mid-semester examination; (3) They must not be under censure at the time of their election or appointment.

THE HENRY P. MILET UNIT, CATHOLIC STUDENTS' MISSION CRUSADE

At the organization meeting of the Catholic Students’ Mission Crusade, held at Techny, Illinois, in 1918, the Senior Sodality was represented, and its mission section became a senior unit, and consequently, a charter member of this great movement.

In January, 1921, however, the unit assumed a more definite form as the Crusade unit of the Liberal Arts College, and under the leadership of Rev. Joseph C. Flynn, S.J., moderator, elected officers and began intensive work to arouse student interest in missions, and to forward spiritual and material aid. The name “The Henry P. Milet Unit” was chosen in honor of Rev. Henry P. Milet, S.J., a former director of the High School Sodality, now a missionary in Patna, India.

Meetings are held weekly, and weekly collections are taken up for the benefit of the missions. Cancelled stamps and tinfoil are collected for the same purpose. The first Sunday of the month is Mission Sunday, observed by the reception of Holy Communion for the welfare of the missions. There are at present about 95 members in the unit.

Officers for 1924-1925 were: Rev. John F. Walsh, S.J., Moderator; Earl J. Winter, ’26, President; Paul J. Rattermann, ’27, Recording Secretary; G. Edward Fern, ’27, Corresponding Secretary; John B. Stenz, ’27, Treasurer; Earl J. Winter, ’26, and John Williams, ’28, delegates to Cincinnati Local Conference.
THE STUDENT COUNCIL

This representative body undertakes to promote student activities whether athletic, social, scholastic or religious; to maintain a healthy spirit of interest and comradeship among the students; to impart, foster and exemplify the ideals which the College strives to realize. It attempts to meet local student problems chiefly by creating a sane public opinion.

The ex-officio members of the Council are the Dean, as Faculty representative, and the president of each class. The other ten members are chosen as follows: the Freshmen choose as their representatives a member from each of the three upper classes; the Sophomore, a member each of the higher classes; the Junior, a Senior; and the Seniors, a member of their own class. The purpose of this method is to give the weight of numbers to the upper classmen who are better acquainted with the spirit of the school, and to make the Council a thoroughly representative body.

Ex-Officio Members: Rev. Daniel M. O'Connell, S.J., Dean, Faculty Representative; Phil. J. Kennedy, Senior Class President; John Troy Gaynor, Secretary; Junior Class President, James John Boyle; Sophomore Class President, Marcellus Schmidt; Freshman Class President, James Lawrence Nolan; Class Representatives, Senior Class, John Troy Gaynor, Joseph Henry Meyers, Charles F. Murphy, Robert Olinger; Junior Class, Francis Arlinghaus, Thomas Manion, Earl Winter; Sophomore Class, Joseph Kelly, Urban Fisher; Freshman Class, Arthur Schultz.

ST. XAVIER ALUMNI ASSOCIATION

OFFICERS FOR 1925

President, Alfred T. Geisler; Vice-President, Albert Wesselman; Honorary Vice-Presidents, Dr. William H. Wenning, '96, James A. Sebastiani, '73, Dr. H. H. Hoppe, '86, Gen. P. L. Mitchell, '97, Dr. Thomas J. Glenn, '04, Paul K. Moorman, '11, James J. Cushing, '23; Financial Secretary, James J. Grogan, '08; Recording Secretary, Michael A. Hellenthal, '23; Treasurer, Lawrence H. Kyte, '23; Executive Committee, John E. Hoban, William B. Poland, Dr. A. C. Minor, Morgan Williams, Joseph C. Topmoeller, William L. Reenan, Charles H. Purdy; Moderator, Rev. George R. Kister, S.J.

SODALITY OF THE IMMACULATE CONCEPTION

OFFICERS 1924-1925

Moderator, Rev. John F. Walsh, S.J.; Prefect, Albert Schmitz; First Assistant, Murray Paddack; Second Assistant, Thomas Manion; Sacristan, Herbert Barnhorn; Librarian, Edward Fern; Medal Bearer, Alfred Helfesrieder; Organist, Eugene Perazzo.

The purpose of the Sodality is to develop Christian character under the protection of the Mother of Christ and to cultivate the lay apostolate. The College Sodality endeavors to obtain this two-fold purpose by conducting weekly meetings in the chapel at which the Office of the Blessed Virgin is recited and instructions are given by the director and by organizing sections for the promotion of special activities.

THE KNIGHTS OF THE BLESSED SACRAMENT

Established at St. Xavier College in January, 1925. The knights sign the following:

THE WORD OF HONOR

It is my will to seek admission into the Circle of the Knights of the Blessed Sacrament. On my Word of Honor I promise to receive the Most Holy Body and Blood of my Lord in Holy Communion at least once a week, to attend Mass at least once a week in Elet Hall Chapel, and to observe all the customs of the Knighthood.

Date. . . . . . . . . . . . Signature. . . . . . . . . . . . .

N. B.—This Card is a memorial of the greatest deed which the Knight has done in his life.

PHILOPEDEAN SOCIETY

OFFICERS 1924-1925

President, J. Harry Moore; Treasurer-Secretary, John B. Stenz; Moderator, Professor Walter Gavigan. Committee on Debates, Ronald Jeannoughin, Chairman.

This Society was organized under its present name in 1841. Its object is to foster a taste for eloquence, history and general literature. The members assemble in their hall every week for debates or for the discussion of carefully prepared essays on disputed points of history.

ATHLETICS

Board of Control. The general supervision of all athletics is in charge of the Athletic Board of Control.

This Board has charge of all matters pertaining to athletic sports at the College, such as: Eligibility of players on all teams, investigation of charges of mis-conduct against any player, arrangement of schedules and signing of contracts, purchase of athletic supplies, awarding of letters, and the like.

The Athletic Board of Control consists of the Faculty Director of Athletics and his two Assistants, the Director of Physical Training,
and the Student Managers and Captains, in season, of the various teams representing the College.

The policy of the Board is that of hearty encouragement of all forms of intramural and intercollegiate athletics:

**Intramural.** The College has organized leagues in baseball, tennis, football and basketball, thus securing the means for healthy exercise and recreation.

**Intercollegiate.** Representative teams contest with other colleges in the above-named branches of sport. The members of these teams must furnish satisfactory scholastic records. (Cf. Eligibility Rules, p. 27).

**ATHLETIC COUNCIL**

**OFFICERS**

Walter S. Schmidt, Chairman; A. W. Leibold, Vice-Chairman; Henry Bunker, Secretary; John E. Hoban, Treasurer; Rev. Alphonse Fisher, S.J., Faculty Representative; Philip J. Kennedy, Student Representative. Executive Committee: Henry Bunker, Frances A. Gauché, John E. Hoban, Lawrence Kyte, A. W. Leibold, Dr. Ancel C. Minor, Walter S. Schmidt, Morgan W. Williams, Albert Wesselman.

**COLLEGE GLEE CLUB**

All students who, in the opinion of the Director, have the necessary qualifications, are eligible to membership in the College Glee Club. Two hours each week, on an average, are given to vocal culture, accompanied by instruction in musical theory and correct interpretation. Four part compositions of moderate difficulty are chosen for the rehearsals. The Glee Club is expected to furnish one or more numbers for all public or semi-public entertainments. Regularity in attendance at rehearsals is imperative and an absolute condition of membership.

**COLLEGE ORCHESTRA**

The College Orchestra affords opportunity for ensemble playing. Membership is open to those students who have sufficiently mastered the technique of an orchestra instrument, and display satisfactory facility in reading moderately difficult music at sight.

**"THE XAVERIAN NEWS"**

The publication of The Xaverian News, a fortnightly newspaper of student activities, was begun in November, 1918. It is intended to knit student activities more closely together, while stimulating and invigorating them. It is published by a board of student editors, under the supervision of a Faculty Director. This editorial staff is appointed by the Director on recommendation of the Department of English and with the approval of the President of the College. Appointment to the staff is a recognition of literary ability.

**THE XAVIER MASQUE SOCIETY**

The purpose of this society is to foster the undergraduate dramatic, literary and musical interests of the College and to promote social intercourse among the members.

Officers: Moderator, Mr. John A. Ryan, S.J.; President, J. Harry Moore; Secretary, Robert Brunsmann; Treasurer, John A. Murray; Dramatic Director, Walter V. Gavigan; Musical Director, Eugene Perazzo; Business Manager, Ronald Jeanmougin; Program Manager, Robert A. Ruthman; Stage Manager, Francis A. Airlinghaus; Publicity Agent, Earl Winter; Property Custodian, LeRoy Grogan; Assistant Property Custodian, George R. Vollman; Assistant Scenic Director, Frank Koester.

**DANTE CLUB**

Officers: Rev. D. M. O'Connell, S.J., Moderator; Joseph H. Meyers, President; G. Murray Paddock, Vice-President; James P. Glenn, Secretary; Robert A. Ruthman, Business Manager; Eugene J. Perazzo, Musical Director; Thomas J. Manion, Introductory Speeches; Joseph H. Meyers and G. Murray Paddock, Inferno; James P. Glenn, Purgatorio; Robert A. Ruthman, Paradiso; Edward J. McGrath, Alternate.

**STUDENT EXPENSES**

All communications concerning tuition, fees, and rental of rooms should be made to the assistant-treasurer of the College.

As the institution is not endowed, it is entirely dependent for its support on the fees paid for tuition.
The school year is divided into two semesters. The fees must be paid before each semester begins. No student is admitted to roll-call unless all fees for the semester are paid in advance.

Matriculation Fee (payable once) ........................................ $ 5.00

N. B.—All charges are payable in advance, by the semester.

*Juniors and Seniors, who have graduated from St. Xavier High School and merit the enjoyment of the William F. Poland Fund, must pay incidental fees in advance.

No student will be admitted to a semester examination or to the final examination for graduation if any bills remain unpaid.

ROOMS AND BOARD

Elet Hall, the only College Dormitory at present ready for use, accommodates ninety students.

The arrangement of rooms in the dormitory is such that they may be rented singly or for two. The College supplies all necessary furniture for each student, and complete care of the rooms. The rooms are heated with steam, supplied with hot and cold water, and lighted with electricity.

A student who is occupying a dormitory room is allowed until April twenty-first to re-engage it for the succeeding year. Beginning with April twenty-third, application will be received from any present occupant of the dormitory for any dormitory room. Beginning May first, members of the College not now occupying rooms may apply in the following order:—members of the incoming Senior class, May first; members of the incoming Junior class, May second; members of the incoming Sophomore class, May third. Beginning May fifth, rooms will be rented as called for or they may be reserved for incoming Freshmen.

A payment of ten dollars is required when a room is engaged, this amount being credited on the account when the first payment is made. The balance of one-half of the yearly rental is payable at the beginning of the college year and the second half on or before February first.

Dormitory rooms may be rented only for the entire academic year. Applicants who are rejected at the June examinations will be released from their contracts, and deposits made to secure rooms will be refunded on written request to the Treasurer before July thirtieth. After the June examinations all applicants who engage rooms will be held responsible for the year's rental.

Dormitory rooms may be occupied on the Monday of the week in which the college year opens.

The prices charged for rooms include heat, light, water, and care by janitors. The range of prices for the current year is as follows:

Single rooms from $75 a semester.
Double rooms from $100 a semester.
Board is furnished at the College Inn at $225 a semester of 18 weeks.

STUDENT AID

Whenever practicable, self-help is encouraged by student employment, through the St. Xavier Students' Welfare Bureau. This organization was established August 4, 1919. Its object is to secure employment and suitable lodgings for students who may be in need of assistance, and to enable students who have finished their course to secure desirable positions. Students who need aid should communicate with the President of the Bureau or with the President of the College before September 1st in each year of the college course. A student applying for aid for the first time should present in writing evidence that he is worthy to receive assistance and that such help is necessary to enable him to continue his collegiate studies. Assistance will be withdrawn from students who are irregular in attendance or who fail to maintain a satisfactory record in scholarship or deportment. The members of the St. Xavier Students' Welfare Bureau are drawn from the ranks of the prominent business men of the city of Cincinnati.

OFFICERS

A word of explanation may be welcome as to the purpose and manner of the establishment of Scholarships. The Faculty receives numerous applications each year from deserving young men who have not sufficient means to pay the usual fees, but who are eager to obtain the advantages of a thorough Catholic education. It is with regret that the Faculty finds it impossible to receive all these applicants, since in point of character and diligence they are often all that can be desired. Financial reasons, however, make it necessary to limit the number of pupils admitted free or at a reduction, and it is to widen these limits to greater numbers and open to them the benefit of Catholic education and moral training that we appeal to the friends of the School.

Some of the friends of St. Xavier, realizing the importance and necessity of substantial encouragement and support, have tendered such encouragement and support in the most practical and desirable way, viz.: by establishing Scholarships.

A Perpetual Scholarship is said to have been founded or established when the endowment is in the sum of three thousand dollars, a sum sufficiently large to yield an annual interest that will cover the yearly tuition fees.

A Course Scholarship represents an amount necessary for a full course, payable annually, entitling the holder, upon successful examination at the end of the Course, to a Baccalaureate Degree.

An Annual Scholarship is provided by the yearly donation of eighty dollars.

The President and Faculty wish to express their grateful appreciation of the generosity of these friends of Catholic higher education, and would suggest the founding of such scholarships as an excellent means of assisting the school in its present need.

It should be understood, moreover, that any contribution, however small, may be applied to the good work of founding a scholarship—and the fractional contributions received will be applied to the purpose designated as soon as they will have reached the sum required. In this way, every one may lend a hand, and the good done by securing to every earnest studious young man the priceless advantage of a Catholic education, is endlessly in excess of the moderate outlay involved. We recommend this work to those who feel moved to help poor and worthy students on their way in life.

PERPETUAL SCHOLARSHIPS

The William F. Poland Fund.—About ten years ago Rev. William F. Poland, S.J., transferred a fund, inherited from his parents, to St. Xavier College, with the ultimate intention of endowing the College classes. The holders of the scholarships are to continue to be acceptable in character and demeanor and to maintain their high class standard throughout the year under penalty of forfeiting their scholarship. For the present the Junior and Senior classes enjoy the advantage of this fund. It is hoped that, in the course of time, the Freshman and Sophomore classes may be placed on the same basis through the aid of this fund, together with like help on the part of other friends of the College.

A Friend. Two Scholarships, in thanksgiving for favors received, by a friend of Catholic higher education, whose name is withheld for the present by request.

The Young Ladies' Sodality Scholarship, founded in 1911, by the Young Ladies' Sodality of St. Xavier Church, in favor of a deserving student of St. Xavier Parochial School.

The Denis F. Cash Scholarship, founded in 1913 by this true friend of Catholic higher education.

The Margaret Conway Scholarship, founded in 1914 by Miss Margaret Conway.

The Bernard Brockman Scholarships, founded in 1915 by the late Bernard Brockman, of Cincinnati.

The Alphonse S. Wetterer Scholarship, founded in 1915 by the late Alphonse S. Wetterer, to be applied to a deserving student of St. Augustine's Parish, Cincinnati, O.

The St. Xavier Young Men's Sodality Scholarship is maintained by the income from a fund of $1,500 given to the College by the Young Men's Sodality of St. Xavier Church. It is bestowed at the discretion of the Moderator of the Sodality upon any worthy student from St. Xavier Parish giving promise of future usefulness and studying in the Classical Course. The income from this scholarship amounts to $80 a year.

The Cornelius Shea Scholarship is supported by a fund of $1,000 given to the College "for the cause of Catholic education." The income from this amount is awarded annually, at the discretion of the President or the College, to a deserving student in the Classical Course.

The President and Faculty wish to express their grateful acknowledgment of the receipt of five hundred dollars, advanced by a friend as a basis for another Perpetual Scholarship.

COURSE SCHOLARSHIPS

The Judge William A. Geoghegan Scholarship, offered by Judge William A. Geoghegan for a deserving student to be chosen by the Faculty.
The James L. Leonard Scholarship, offered by Mr. J. L. Leonard to procure for a deserving student the lasting benefits of the same training received by himself.

The Class of 1924 Scholarship, offered by the members of the class and to be awarded to one of the successful candidates from the Eighth Grade of the Parochial Schools of the Dioceses of Cincinnati and Covington, taking part in the annual scholarship contest.

ANNUAL SCHOLARSHIPS

Scholarships for the coming year are offered by the League of the Sacred Heart, St. Xavier Church (three scholarships), and one by the Rosary Christ Child Society of St. Xavier Church, Thomas Geoghegan, A.B., The Clarence DuBrul Annual Scholarship and Mrs. Charles Williams. Two scholarships are also offered by Matthew Ryan and family.

FOUNDED MEDALS AND PRIZES

Another method of assisting both Faculty and students is the foundation of medals and other prizes. A gift of $500 will found a medal in perpetuity and the founder's name will be perpetuated in the annual catalogues. It is hardly possible to conceive a more effectual way of perpetuating the memory of a benefactor than this foundation of medals and prizes. The name of the benefactor will be annually recalled as long as the College survives, and unborn generations of beneficiaries will bless the memory of the benefactors.

COLLEGE HONORS

COMMENCEMENT HONORS

Diplomas are graded as rite, cum laude, magna cum laude, summa cum laude, according to scholarship.

Summa cum laude rank is fixed at ninety five per cent, magna cum laude at ninety per cent, and cum laude at eighty-five per cent. These honors are announced at Commencement in June, are described on the diplomas of the recipients, and appear in the published list of graduates in the annual catalogue.

HONORS IN SCHOLARSHIP

The honors and prizes awarded at the end of the year are determined by the combined results of class work and examinations mentioned above. Four gold medals for Class Honors are awarded each year to those students who lead their respective years in scholarship, provided a grade of A (93-100) or above is maintained for the year's work.

Those who maintain an average of A throughout the year merit the distinction of First Honors. An average of B (85-92) entitles a student to Second Honors. A student who fails to receive D (70) in any subject in a semester examination is thereby disqualified to receive any honors during that year.

PRIZES

Inter-Collegiate English Prize. A purse of $100.00 ($50.00 for the first prize; $20.00 for the second; $15.00 for the third; $10.00 for the fourth, and $5.00 for the fifth), is offered yearly by Mr. D. F. Bremner, of Chicago, for excellence in English essay writing. The purse is open to competition among the students of the Jesuit Colleges of the Missouri Province, which are:

- St. Louis University
- St. Xavier College
- Loyola University
- St. Mary’s College
- Creighton University
- University of Detroit
- Marquette University
- John Carroll University
- St. John’s University
- Campion College
- Rockhurst College
- Regis College
- Campion College
- Rockhurst College

Inter-Collegiate Latin Prize.—For the best Latin essay from competitors of the same colleges, a gold medal is offered each year by Very Rev. Francis X. McMenamy, S.J., Provincial.

The Joseph B. Verkamp Medal.—A gold medal is offered by Mr. Joseph B. Verkamp to be awarded to that member of the Philo-pedian Society who shall deliver the best speech in the annual Public Debate of the Society.

The Alumni Oratorical Medal. A gold medal, known as the “Washington Medal,” is offered by the St. Xavier Alumni Association for the best original oration delivered in the annual contest in oratory, held on February 22d, Washington’s Birthday.

Honorable Mention is awarded in the various departments, v. g.: Chemistry, English, French, Latin, etc., under the following conditions: (1) there must be a standing of not less than (C) 77 per cent in every department; (2) an average of (A) 93 per cent must be maintained for a full year's course in the department in which honorable mention is sought.

ADMINISTRATIVE PROCEDURE

SESSIONS AND VACATIONS

The college year begins on the second Monday in September, and includes thirty-six weeks, which are divided into fall and spring terms, or semesters, of eighteen weeks each. There is a Christmas Recess of one week, and an Easter Recess of six days. Classes are not held on legal holidays, nor on days observed as holydays of obligation in the Catholic Church. Commencement Day takes place during the third full week in June.

ATTENDANCE

Every student is expected to attend class room and laboratory exercises regularly. No student whose absences in any course total fifteen per cent of the scheduled meetings of the class will be admitted to the midyear or final examinations in the course. Students thus excluded will receive a Failure for the course. For every unexcused absence an average of one-third of a credit hour, in a three hour course, is deducted.

In applying this rule, students who are not present at class or laboratory exercises during the twenty-four hours preceding or following any College holiday or vacation will be marked two absences for each exercise missed unless permission has been previously asked for in writing and granted by the Dean.

It is clear that no student is entitled to a certain number of unexcused absences. No “cuts” are allowed. Teachers are to report to the Dean students who are absent.

In the case of absence due to illness the student must inform the Dean by mail or otherwise on the first day of the absence. In the case of absence due to illness or death of relatives, permission must be obtained in advance from the Dean.

If a student is present at a class room exercise, and reports in advance that he is unprepared, he will be charged with half an absence. If this lack of preparation is discovered during the recitation he will be charged with one absence.

All omitted exercises, whether the absence is excused or not, must be made up within one week after the resumption of college duties as appointed by the professor whose exercises were omitted or they will be counted as credit hour deductions. An excuse for absence does not relieve the student from responsibility for the work of his class during his absence. The responsibility in all these cases rests with the student.

Tardiness of less than ten minutes at a class room exercise counts as part-absence. Tardiness of more than ten minutes at a class room exercise will count as absence.

If a student is absent either with or without excuse from six per cent or more of the exercises of a given class in any semester, he will be required to take an extra examination which will ordinarily cover the work gone over during his absence. For each unexcused absence in any subject a deduction of one per cent will be made from the student’s final grade in that subject. If a student is absent from fifteen per cent of the class or laboratory exercises of a course, he shall be barred from the semester examination in that course.

CHAPEL ATTENDANCE

All students are urged to be present at Mass on class days and are obliged to attend other chapel exercises whenever held during the week.

A retreat of three days, from which no exemptions are allowed, is conducted annually for the students in the College Chapel.

DISCIPLINE

The educational system employed by the College includes, as one of its most important features, the formation of character. For this reason, the discipline, while considerate, is unflinchingly firm, especially when the good of the student body and the reputation of the institution are concerned.

While it is the policy of the Faculty to trust as much as possible to the honor of the students themselves in carrying on the government of the College, nevertheless, for the maintaining of order and discipline, without which the desired results are not attainable, regular and punctual attendance, obedience to College regulations, serious application to study and blameless conduct will be insisted upon; and honor, fair-dealing, self-restraint and fortitude will be demanded as the natural and necessary virtues of genuine character. Any serious neglect of these essential points will render the offender liable to censure, even to that of dismissal.

CENSURE

There are four grades of censure: probation, suspension, dismissal, and expulsion. By probation is meant that the student has forfeited the confidence and high esteem of the College authorities and is required to restore them by definite and manifest acts of attention to duty in conduct and academic work. Suspension is exclusion from the College for an indefinite period, not to exceed
one semester. Dismissal is exclusion for a period not to exceed two semesters. Expulsion is the final exclusion of the student from the College and is the highest academic censure and may or may not, according to circumstances, be publicly administered.

The College reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest, primarily, in the serious work of College life. Dismissal may be made without specific charges, and, in rare cases, perhaps on grounds that seem insufficient to students or parents. The College in these cases holds itself to be the more capable judge of what affects the interests of the institution and the student body. Those who are unprepared to accept this condition should not apply for admission.

EXAMINATIONS

ENTRANCE EXAMINATIONS

Examinations will be conducted by the Dean, but the head of the department concerned will be responsible for the preparation of questions, prompt reading of the papers, and the reporting of the results. The questions will ordinarily constitute an examination of two hours.

TESTS

Partial examinations or tests or written recitations are held from time to time during the semester with or without previous notice to the students at the discretion of the instructor. Absence, for whatever reason, from a test which has been duly announced is reckoned the equivalent of absence from three ordinary class exercises.

SEMESTER EXAMINATIONS

Examinations in all subjects are held at the close of the semester. The result of the semester examination, combined with the student's class work (each to count one-half) will determine his grade for the semester. Students who, for any cause, have been absent from more than fifteen per cent of the exercises in any course will not be admitted to the examination in that course. A student who has been absent from the regular examination for reasons satisfactory to the Dean may be examined at a time to be determined by the Dean. Unexcused absence from the semester examination counts as failure.

SUPPLEMENTARY EXAMINATIONS

A condition (E) due to failure in the semester examination may be removed by a supplementary examination upon recommendation of the department concerned and with the approval of the Dean of the College. These examinations may be taken only on the day specified, and may not be deferred except with the express consent of the Dean. A conditioned student who desires such examination must notify the Registrar in writing one week in advance so that examination questions may be prepared. He must also notify the Dean so that arrangements may be made for holding the examination. Any student failing to give such notice shall not be allowed to take the examination. A student may take only one examination to remove a condition. If he fails to pass a subject both in the regular and supplementary examination, he must repeat the course the next time it is offered in class. Removal of condition by examination shall not entitle the student to a grade higher than D. A conditioned student absent from the regular or supplementary examination must present an excuse satisfactory to the Dean or receive a grade of F for the course.

Conditions may be incurred: (a) by failure to satisfy the requirements in a course, which requirement includes recitations, tests, and other assigned work as well as the examination; (b) by exclusion from examination because of excessive class-room absences; (c) by absence due to any cause on a day appointed for examination provided the work done during the semester is below passing.

The fee for each examination for the removal of conditions shall be one dollar. Students who are absent from conditioned examinations with the permission of the Dean to take such examination at other than the regular time shall pay five dollars for each examination. No student shall be allowed to take these examinations until he presents a receipt from the Bursar for this fee.

SPECIAL EXAMINATIONS FOR CREDIT

Special examinations may be given upon the recommendation of the head of the department concerned and with the approval of the Dean of the College in which the student is enrolled. No credit in a beginning language course may be gained by such special examination.

REPEATING COURSES

The student must, at the first opportunity, repeat in class the study in which he has failed. In case of failures in any continuous study, the work of the semester in which the failure is incurred must be repeated in class before any subsequent semester's work in that study can be undertaken.

The penalty for cheating in examinations is immediate suspension from the College for the remainder of the semester and ineligibility for student activities for one year after reinstatement, and such publicity as the Executive Officer may direct.
STUDENTS ON PROBATION

Any student who fails during any semester to earn credit points equal to at least the number of credit hours of courses assigned him for the semester shall be put on probation for the succeeding semester of his residence at the College with restricted work. During the period of probation, a student who fails to earn credit points at least equal to the number of credit hours of courses assigned him for the semester shall automatically cease to be a member of the College and shall be so notified by the Dean. A notice shall also be sent by the Dean to the parent or guardian of the student.

If, for any cause, the preparation, progress or success of any student in the work assigned him be found unsatisfactory, the President may remove him from a class or dismiss him from the College.

Any student, having been in attendance at the College during six semesters, who shall not have earned credit points equal to at least the number of hours taken, shall automatically cease to be a member of the College.

CLASSIFICATION OF STUDENTS

No student will be advanced to a higher class if he has any conditions prior to the year in which he ranks.

Those students are ranked as Sophomores who have at least twenty-four hours (and points) and have completed the prescribed courses of freshman year; Juniors, those who have fifty-six credits (and points) and have completed the prescribed courses of the sophomore year; Seniors, those who have ninety-two credit hours (and points) and have completed the prescribed courses of the junior year.

No student will be considered a candidate for graduation if he has any deficiency at the beginning of the second semester of the Senior year.

REPORTS

Every professor reports three times a semester to the Dean, on blanks provided for that purpose, the standing of each student in his classes, together with the number of his absences and deficiencies in class work. When a student is seen to be falling behind in his studies, he is notified at once and counselled to bring up his standing. If no improvement is shown, his parents or guardians are notified.

Reports containing a record of the class standing, the attendance and deportment are sent after each examination to parents or guardians. Reports are also sent about November 1st, December 23rd, March 15th and May 15th. Special reports are made at other times when it is deemed advisable, or upon special request.
ADMISSION

REGISTRATION

New students must make application for admission to the Registrar, and must file permission to register with him. A student will not be registered without official entrance records. Students entering from other colleges should first see the Chairman of the Committee on Advanced Standing.

Former students in good standing, after having paid their fees, will proceed to the Registrar to arrange their schedule for the semester.

TIME OF REGISTRATION

All students are expected to register and pay their fees BEFORE the day designated for classes to begin and to report promptly to their classes on the first day that classes are announced.

Applicants presenting themselves after the opening of the semester can be admitted only for exceptional reasons. In general, a student who is permitted to enter after the close of the first week of a semester shall be given a schedule diminished by one full course below the normal requirement for that student.

TESTIMONIALS AND CREDENTIALS

All applicants for admission to the College must present satisfactory testimonials of good moral character. A student entering from another college or institution of collegiate rank, must furnish from such institution a certificate of honorable dismissal before his credentials for scholarship will be examined by the Entrance Board.

ENTRANCE REQUIREMENTS

Candidates for admission to Freshman year must present entrance credits amounting to fifteen units representing four years of high school work. A unit is a series of recitations or exercises in a given subject pursued continuously throughout the school year. The number of class exercises required in a week for each unit shall, in general, be five. Double periods are required for laboratory courses.

Not less than a full unit will be accepted in the first year of any language. Half units will be accepted, but only when presented in addition to integral units in the same subject, or in half-year subjects which constitute a complete course in themselves, e.g. Solid Geometry Any two of the biological sciences (Physiology, Botany, Zoology) may be combined into a continuous year's course equal to one unit.

II. Electives

The remaining four or five and one-half units may be selected from any subject counted towards graduation in an accredited or recognized high school, with the following restrictions:

(a) No subject may be presented for less than a half unit of credit, as explained above.

(b) Not more than one unit will be accepted in any vocational subject counted toward graduation in an accredited or recognized high school.

(c) Vocal music and physical training will not be recognized for credit.

CONDITIONS

A condition of not more than one unit may be allowed to a candidate ranking above the lowest quarter of his high school class; but no condition is allowed in the prescribed English, Algebra or Geometry.

(a) This remaining unit may represent work not offered at entrance, and is in that case a real deficiency. Such students are considered as deficient students and must remove this deficiency during their first year of residence.

(b) Students offering the required number of units may fall slightly below the passing grade in one unit of work. Such students

*Students presenting full fifteen units without the prescribed four units in Latin or without the prescribed two units in foreign language will be given an opportunity to make up these requirements during the first two years at college.

†Candidates for the B. S. degree who present fifteen units, but only two units in Mathematics, may be admitted with the obligation of supplying the other half unit during Freshman year.
METHODS OF ADMISSION

ADMISSION BY CERTIFICATE

Admission without examination on certificate is granted to students from approved secondary schools as follows:

2. Secondary schools accredited by any recognized standardizing agency.
3. Secondary schools accredited by the University of Ohio.
4. High schools of the first grade in other states, which are so rated by the State Superintendent of Public Instruction.
5. Private schools and academies, not on any list, but approved, after investigation, by a vote of the Faculty of St. Xavier College.

Credentials which are accepted for admission become the property of the College and are kept permanently on file. All credentials should be filed with the Registrar. They should be mailed at least one month before the beginning of the semester in order to secure prompt attention. Compliance with this request will save applicants much inconvenience.

Blank forms of entrance certificates, which are to be used in every case, may be had on application to the Registrar. Certificates must be made out and signed by the principal or other recognized officer of the school and mailed by him directly to the Registrar.

No certificate will be accepted unless the holder has spent the last year of his high school course in the school issuing the certificate. A catalogue of the school, if published, describing the course of study in detail, should accompany the certificate.

It is expected that the Principal will recommend not all graduates, but only those whose ability, application and scholarship are so clearly marked that the school is willing to stand sponsor for their success at college.

The College reserves the right to require entrance examinations in the case of candidates for admission whose certificates show grades below 80 per cent in the prescribed units.

The certificates should fully cover the entrance requirements of the College. Admission on school certificates is in all cases provisional. If, after admission to the College, a student fails in any subject for which a school certificate was accepted, credit for that entrance subject may be canceled.

ADMISSION BY EXAMINATION

Applicants who are not entitled to enter on certificate must take the entrance examinations in the entire number of required units listed on page 45. These examinations are held during the last week in June and the first week in September. The applicant may divide the examinations into two parts, taking as many as possible in June, and the remainder in September. An examination in which the applicant has failed in June may be taken again in September.

ADMISSION TO ADVANCED STANDING

College credit for work done in a secondary school in excess of the requirements for admission can be given only on examination provided through the Dean's office, and on the basis of four semester hours of credit for one unit of work.

Candidates for admission from other institutions of collegiate rank, which offer the same or equal courses o' study as those at St. Xavier College, will be granted the same standing as at the former institution upon presenting in advance of registration:

1. A certificate o' honorable dismissal.
2. An official transcript of college credits, with specifications of courses and year when taken, hours and grades.
3. An official certified statement of entrance credits and conditions, showing the length of each course in weeks, the number of recitations and laboratory exercises each week, the length of recitation and the mark secured.
4. A marked copy of the catalogue of the college previously attended, indicating the courses for which credit is desired.

No student will be admitted to the College as a candidate for a degree after the beginning of the first semester of the Senior year.

SPECIAL STUDENTS

Mature and earnest students who are either lacking in the required entrance units or who wish to pursue particular studies without reference to graduation, may be admitted with the permission of the Dean, to such courses of their own choice as they seem qualified to undertake.
The work thus done by special students can not be counted later on toward a degree at St. Xavier College unless all entrance requirements have been satisfied.

SCOPE OF ENTRANCE SUBJECTS

The following descriptive outline indicates the amount of preparation expected in each of the subject named:

LATIN

[a] Grammar and Composition. The preparation in grammar and composition will require a thorough knowledge of the entire Latin grammar together with such facility in writing Latin prose as is required by one who satisfactorily completes the course of exercises prescribed by St. Xavier High School. This course is based on Bennett's New Latin Composition.

[b] Reading. Caesar's Gallic War, four books; Nepos Lives (6) may be taken in place of two books of Caesar; Cicero's "Orations against Catiline and for Archias and the Manilian Law." Cicero's "De Senectute and Sallust's Catiline or Jugurthine War" may be taken as substitutes for three of the above orations. Vergil, four books of the Aeneid (or their equivalent from the Eclogues, or Georgics), and Ovid's Metamorphoses. The examination will include translation at sight of both prose and verse. (Four units.)

GREEK

[a] Grammar and Composition. The examination in grammar will require a thorough knowledge of etymology, of the syntax of cases, the rules of concord and prepositions. A working knowledge of the epic dialect; practice in metrical reading and written scansion; practice in reading at sight. For Greek the credit is three units. Composition will be based on Xenophon and will test the candidate's ability to translate into Greek simple sentences with special reference to the use of the forms, particularly of the irregular verb, and the common rules of syntax.

[b] Reading. Xenophon's Anabasis, four books, or their equivalent: Homer's Iliad or Odyssey, two books. The examination will include translation at sight of both prose and verse. (Three units.)

ENGLISH*

a. RHETORIC AND COMPOSITION

The applicant should be familiar with the principles of Rhetoric as set forth in Brook's, Scott-Denley, or an equivalent. The composition will test the candidate's ability to write clear, idiomatic English. The subject will be taken from his experience and observation, or from the books he presents for examination. The spelling and punctuation must be correct, the sentences well constructed. The writer must show discrimination in the choice of words and ability to construct well ordered paragraphs.

b. LITERATURE

A. For Reading. Cooper, The Spy, The Last of the Mohicans; Stevenson, Treasure Island; Poe, Poems and Tales; Scott, The Talisman; Longfellow, Tales of a Wayside Inn; DeQuincey, Flight of a Tartar Tribe; Elliot, Silas Marner; Shakespeare, Julius Caesar; Pope, Essay on Criticism; Tennyson, Idylls of the King.

B. For Study. Dickens, Christmas Stories; Irving, Sketch Book; Hawthorne, Twice-Told Tales; Scott, Ivanhoe; Whittier, Snowbound, and other poems; Sir Roger de Coverley Papers; Washington, Farewell Address; Webster, Bunker Hill Oration; Dickens, David Copperfield; Lowell, Vision of Sir Launfal, and other poems; Lamb, Essays of Elia; Macaulay, Essay on Johnson; Garraghan, Prose Types in Newman; Newman, Dreams of Gerontius; Shakespeare, Merchant of Venice.

A knowledge of the subject matter and form of each work with an explanation of the principal allusions will be required, together with the literary qualities, so far as they illustrate rhetorical principles, a biographical outline of the authors and an account of their works. (Three units.)

FRENCH†

1. The first year's work should include careful drill in pronunciation and in the rudiments of grammar, abundant easy exercises designed to fix in the mind the principles of grammar, the reading of 100 to 175 pages of graduated text, with constant practice in translating easy variations of the sentences read, and the writing of French from dictation. (One unit.)

*The Uniform College Entrance Requirements in English for 1917 will be accepted, as will any fair equivalent work in this department.
†The admission requirements in French are those recommended by the Modern Language Association of America.
2. The second year's work should comprise the reading of from 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches, constant practice in translating into French easy variations upon the texts read, frequent abstracts—sometimes oral and sometimes written—of portions of the text already read, writing French from dictation, and continued grammatical drill, with constant application in the construction of sentences. (One unit.)

3. Advanced courses in French should comprise the reading of 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form, constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read, the study of a grammar of moderate completeness, and the writing from dictation. (One unit.)

GERMAN*

1. The first year's work should comprise careful drill in pronunciation; memorizing of easy, colloquial sentences; drill upon the rudiments of grammar; easy exercises, designed not only to fix in the mind the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; the reading of from 55 to 100 pages of text; constant practice in translating into German easy variations upon sentences selected from the reading lesson and in reproducing from memory sentences previously read. (One unit.)

2. The second year's work should comprise the reading of 150 to 200 pages of literature in the form of easy stories and plays, practice in translating into German the substance of short and easy selected passages, and continued drill upon the rudiments of grammar. (One unit.)

3. Advanced work should include, in addition to the two courses above, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, abstracts, paraphrases, or reproductions from memory of selected portions of the matter read; also grammatical drill upon the more technical points of the language. (One unit.)

HISTORY

The candidate will be expected to show on examination such general knowledge of each field as may be required by the study of an accurate text-book of not less than three hundred pages. The

[50]

examination will call for comparisons of historical characters, periods and events, and, in general, for the exercise of judgment as well as of memory.

1. Ancient History. Comprising Oriental and Greek History to the death of Alexander, and Roman History to 800 A.D., with due reference to Greek and Roman life, literature and art. (One unit.)

2. Mediaeval and Modern History. From the death of Charlemagne to the present time. (One unit.)

3. English History. With due reference to social and political development. (One-half or one unit.)

4. American History. With special stress upon the national period, and Civil Government. (One half unit.)

MATHEMATICS

Elementary Algebra and Plane Geometry are required for admission to all courses; the other subjects are optional, unless otherwise indicated above.

1. Elementary Algebra. Algebra through Quadratics. The points to be emphasized are: Rapidity and accuracy in performing the four fundamental operations, factoring and its use in finding the greatest common factor and the lowest common multiple, radicals, the solution of linear equations containing one or more unknown, the solution of quadratic equations, and the statement and solution of problems. Candidates who have not reviewed the work in Algebra during the last year in High School will be required to take examinations in this subject. (One unit.)

2. Plane Geometry. The usual theorems and constructions of good text-books. Attention should be paid to the solution of original exercises and numerical problems and to the subject of loci. It is desirable that a short course in practical Geometry should precede the study of formal Geometry. (One unit.)

3. Solid Geometry. The usual theorems and constructions of good text-books. Attention should be paid to the solution of original exercises and numerical problems and to the subject of loci. (One-half unit.)

4. Intermediate Algebra. Theory of quadratic equations, remainder theorem, radicals with equations involving them, imaginary and complex numbers, ratio and proportion, variation, arithmetic and geometric progressions and graphs. (One-half unit.)

*The admission requirements in German are those recommended by the Modern Language Association of America.
5. **Advanced Algebra.** This includes permutations and combinations, the binomial theorem for positive integral exponents, logarithms, convergency and inequalities. *(One-half unit.)*

6. **Trigonometry.** Plane Trigonometry as presented in the best modern text-books. Special attention should be paid to accuracy, neatness, and the proper arrangement of the work. *(One-half unit.)*

### NATURAL SCIENCES

**Physics.** One year's daily work in Physics, of which one-third should be laboratory work. The student should possess a thorough knowledge of the elementary principles of mechanics, heat, light, sound, electricity and magnetism, as presented in such text-books as Millikan and Gale or Carhart and Chute. Note-books on the work done in the laboratory, certified by the instructor, must be presented at the time of entrance. *(One unit.)*

**Chemistry.** One year's daily work in Chemistry, of which one-third should be laboratory work. The student should possess a thorough knowledge of the general laws and theories of chemistry and should be familiar with the occurrence, preparation and properties of the common elements and their compounds as presented in such text-books as McPherson and Henderson, Storer and Lindsay or Remsen. Note-books on the work done in the laboratory, certified by the instructor, must be presented at the time of entrance. *(One unit.)*

**Zoology.** One year's daily work in Zoology as presented in the text-books of Linville and Kelly, Jordan or Kellogg, with work in the laboratory and the field. A note-book on the work in the laboratory and the field, certified by the instructor, must be presented at the time of entrance. *(One unit.)*

**Botany.** One year's daily work in Botany as presented in Bergen, Atkinson or Coulter. A note-book, certified by the instructor, describing the work done in the laboratory and the field, must be presented at the time of entrance. *(One unit.)*

**General Biology.** A combined course in Botany and Zoology, extending throughout the year, as presented in Hunter's *Essentials of Biology* or an equivalent text. A note-book on the work in the laboratory and the field, certified by the instructor, must be presented at the time of entrance. *(One unit.)*

**Physical Geography.** One year's daily work in Physical Geography as treated in the text-books as Tarr, Davis or Dryer, with training in the laboratory and the field. Note-books on the work in the laboratory and the field, certified by the instructor, must be presented at the time of entrance. *(One unit.)*

### REQUIREMENTS FOR THE BACCALAUREATE DEGREES

The conditions for the Baccalaureate degrees are the following:

1. The satisfactory completion of the four years course leading to the degree for which the student is a candidate.
2. A written thesis approved by the Dean of the College and presented on or before April 15th of the year in which the degree is expected to be conferred.

3. All work in order to be accepted in fulfillment of any requirement for the degree must be completed with grade D (70-76) or over, and three quarters of the work must be grade C (77-84) or above.

4. A fee of fifteen dollars payable in advance.

All applicants for a degree should file their application and present their credits on or before the 15th of April.

GRADUATE DEGREES

Requirements for the A. M. degree:
1. The candidate must have an A. B. degree from an institution of good standing and must devote one year exclusively to resident graduate study, completing twenty-four semester hours. Two years will be required if the candidate's whole time is not devoted to study.

2. The work must ordinarily embrace one principal and one or two secondary subjects. It must involve concentrated work in some special field of study in such subjects as Philosophy, History, Economics, Law, Classics, English, Mathematics, Physics, Chemistry, Biology.

3. The candidate must pass a satisfactory examination in all the subjects studied.

4. He must present a typewritten or printed thesis in his major subject.

5. A fee of fifteen dollars is to be paid in advance.

b. The degree of Master of Science, M.S., is conferred under the same conditions as above when the major subject of study has been scientific.

c. Requirements for the degree of Doctor of Philosophy, Ph.D.:

1. The degree is conferred on one who, having previously received the Bachelor's degree from an institution of good standing, satisfies the following requirements:

2. At least three years of resident graduate work in pursuance of an accepted course of study. The course in question must include one principal and one or two secondary subjects. A reading knowledge of French and German is a prerequisite.

3. A satisfactory examination upon the work done in preparation for the degree.

4. The presentation of a satisfactory printed thesis. The chief consideration is that the candidate be able to produce valuable and original work. His thesis must therefore give evidence of ability to conduct independent and original research.

5. Such knowledge of subjects considered fundamental as may be prescribed by the several departments.

REQUIREMENTS FOR GRADUATION

AMOUNT OF WORK

In order to receive a degree, a student is required to complete 128 semester hours of work, three-fourths of which must be of C grade or better.

The requirements for graduation include:
1. A certain amount of prescribed work, especially in the freshman and sophomore years;
2. A major and two minors, usually to be taken during the junior and senior years; and
3. Free electives, which afford opportunity either for broader culture or for greater specialization as the student may choose;
4. At least one college year in residence at St. Xavier College.

The semester hour is the unit or standard for computing the amount of a student's work. A semester hour is defined as one lecture, recitation or class exercise, one hour in length per week, for one semester. Two hours of laboratory work are equivalent to one recitation hour. Two hours of preparation on the part of the student is required for each hour of lecture or recitation.

Regular work for Freshmen is sixteen hours per week. For all others it may be from fifteen to eighteen hours. No candidates for a degree will be allowed to register for fewer than twelve hours of work.

No Freshman may register for more than sixteen hours without special permission of the faculty, and such registration is not allowed to any student in his first semester of residence.

In case of students of longer attendance, advisers may grant permission to take studies up to eighteen hours a week after the standing of the student in each study of the semester is examined and found to be B (85) or over.

Students who drop a study without permission will be marked F on the Registrar's books. If a student is permitted at his own request to drop a course after attending the class for five weeks or more, he will be given a grade of E, which will become a part of the permanent records, just as if he had failed at the end of the course.

No credit will be granted any student for more than forty hours in any department, including credits earned in the freshman year, except:
1. When a student is writing a thesis, he may count in addition to the forty hours, the hours of the course in which he does his thesis work.
2. In the department of English, a student may take forty hours in addition to Rhetoric 1-2.
QUALITY OF WORK

Grades. A student's grade of scholarship in each of his subjects is determined by the combined results of examination and class work.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>A 93—100, Excellent</td>
<td>E—60—69, Conditioned</td>

</tr>
<tr>
<td>C 77—84, Fair</td>
<td>I—Incomplete</td>
</tr>
<tr>
<td>D 70—74, Passed</td>
<td>X—Absent</td>
</tr>
</tbody>
</table>

These grades are not given out to the students by the professors, but are regularly issued from the office of the Dean of the College.

Any student who desires to remove an Incomplete, must first obtain from the Registrar, a blank form for presentation to the instructor in charge of the course. This blank when signed, must be filed with the Registrar within one week from the time of the semester examination. A fee of $1.00 is charged for blanks obtained after the specified time.

Credit Points. A candidate for a degree must gain not only the number of hour credits required but his work must reach a certain standard of excellence. In addition to the 128 hour credits necessary for graduation, each student must earn at least 128 credit points, or an average mark in all subjects of C or better.

For a grade of A in a given course, the student will receive three times as many credit points as there are hour credits in any course; for a grade B, twice as many as hour credits; while D gives hour credits but no points.

For example: A four hour course in which the student receives A, gives twelve credit points; if the grade is B, 8 credit points; if C, 4 credit points.

The maximum number of credit points that can be secured by a student is 384; the minimum 128.

### BACHELOR OF SCIENCE IN COMMERCE

Candidates for this degree must take their majors and minors from Group IV, printed below.

### BACHELOR OF PHILOSOPHY

The course is the same as that outlined above for the degree of Bachelor of Science, except that English is taken during the Sophomore year, instead of Science.

Candidates for graduation must attend any course of lectures or any other exercises that have been or may be authorized and equipped by the Faculty, even though such courses receive no value in credits.

### GROUP REQUIREMENTS

A candidate for a bachelor's degree must complete a major in at least one department, and a minor in each of two other departments:

(a) One of which is correlated to the major.

(b) The other, a free or unrestricted minor, to be chosen from another group.

The various subjects of instruction are divided into three groups as follows:

N. B.—For the degree of Bachelor of Arts or Philosophy the Major study must be selected from Group I or Group II. For the degree of Bachelor of Science the Major study must be selected from Group III or Group IV.
MAJOR
Each student before the end of the sophomore year, must elect courses from some one department, to be known as his major, which must comprise not less than eighteen semester hours.
A major may be changed only by the consent of the Dean and of the heads of the departments concerned, and such change will be permitted only upon the distinct understanding that all the courses prescribed in the major finally chosen shall be completed before graduation.

MINOR
A minor consists of not less than twelve hours in one department. The correlated minor must be chosen from the same group as the major; the unrestricted minor may be chosen from either of the remaining groups.

Courses not taken (a) as prescribed courses and (b) not included in the student's major and minor sequences may be chosen as free electives to complete the 128 credits required for graduation.

In the choice of electives, each student must be guided by his prospective future work. He must ascertain moreover, that such courses are open to his class; that he has fulfilled the prerequisites, and that there will be no conflict in the schedule of recitations or laboratory periods.

First year courses in a foreign language will not be accepted for credit towards a degree unless followed by a second year course in the same language.

Elections for the second term must be filed by members of the upper classes with the Dean on or before January 15th, and for the first term on or before May 20th.

CURRICULUM
The College course extends through four years and embraces instructions in the Departments of Philosophy, Economics, Sociology, Education, Language, Literature, History, Science and Mathematics. The aim of the course is to give the student a complete liberal education, which will train and develop all the powers of the mind, and will cultivate no one faculty to an exaggerated degree at the expense of the others. The college ideal is not to foster specialization, but to cultivate the mind, to build up and strengthen true character, and to impart that accuracy of thought and reasoning and that breadth of view which must ever be the foundation as well of more advanced scholarship as of eminence in the professions or other stations of life.

It is presumed that a man of fair capacity who has conscientiously followed this curriculum under capable professors will be possessed of trained and cultivated faculties and will have a considerable amount of positive knowledge in every department of learning. He will thus be in touch and intelligent sympathy with progress in every field of intellectual activity, and be saved as far as possible from narrowness and superficiality. Such an education serves, it is believed, as the best foundation for special training in any branch which the student, with his mind now mature and disciplined, may decide to take up.

REFERENCE STUDY AND RESEARCH
1. Students taking courses in Philosophy shall prepare and submit each month a paper of two thousand words dealing with the development of some specific topic of the subject matter treated in class.

2. Students taking courses in History and Social Science will be required to hand in two papers each semester. These papers are to contain not less than two thousand words; and at least one of the four papers thus submitted during the year should give unmistakable signs of original research, preferably in some local Catholic subject.

3. All such and other prescribed written assignments will be held to strictly as pre-requisites for graduation, for the fulfillment of which no student will be allowed any extension of time beyond the 15th of April of his Senior Year.
TRAINING OF TEACHERS

The School Code.—Under Section 7807-4 of the General School Code, the Superintendent of Public Instruction of Ohio is authorized to standardize the four-year courses in all colleges seeking to be recognized as institutions for the training of teachers. The following standard was set by the State Department in June, 1914, as a minimum requirement to entitle a college graduate to a four-year high school provisional certificate, without examination.

Professional Training.—Thirty semester hours of professional training are required for certification, fifteen of which must be in Education and the other fifteen may be distributed among Education, Psychology, Philosophy, Ethics, and Sociology. The following is the minimum requirement in Educational Courses:

<table>
<thead>
<tr>
<th>Courses</th>

</tr>
</tbody>
</table>

In practice teaching not less than thirty-six recitations shall be taught by each student, and not more than one recitation a day shall be credited.

Certification. St. Xavier College is fully approved as a standard college and recognized by the State Department for the training of high school teachers, and hereafter her graduates who meet the above professional requirements may secure a Four Year State High School Provisional Certificate, which after twenty four months of successful experience may be changed to a State High School Life Certificate.

Observation and Practice Teaching. Arrangements are made for observation of teaching and practice teaching in the classes of St. Xavier High School and the neighboring high schools.

Curriculum. Students who wish to prepare for teaching school choose, as electives, such courses of the Department of Education as satisfy the State's requirements.

Majors and Minors. The Department of Public Instruction desires in the future to indicate on every State Provisional High School Certificate the subjects taught in high schools in which the holder of the provisional certificate has had major and minor college work.

For this purpose, a major will be interpreted at 18 semester hours of collegiate work with such prerequisite high school units as are specified below, and a minor at 10 semester hours of collegiate work with such prerequisite high school units as are specified below. In the absence of the prerequisite high school units, 6 semester hours of college work may be deducted for each unit lacking, and credit for major or minor indicated if that subtraction leaves the necessary 18 or 10 semester hours.

The subject which will be regarded and the prerequisite units which will be required are as follows:

<table>

It is to be understood that majors and minors, except in Education, are not specified as prerequisite to securing a State Provisional Certificate, but the high school subjects in which major and minor work have been taken will be stated hereafter on the certificate and must be reported to the department before the certificate is issued.

COLLEGE REQUIREMENTS FOR ADMISSION TO A MEDICAL SCHOOL

MINIMUM STANDARD OF EDUCATION PRELIMINARY TO THE STUDY OF MEDICINE

NOTE: Students electing to forego the advantages of training to be secured in the four years of college leading to a degree,
must present a written statement from their parents or guardians attesting their purpose to pursue a medical course after completing the necessary collegiate work.

I. High School Requirements

(a) For admission to the two year premedical college course, students shall have completed a four year course of at least fifteen units in a standard accredited high school or other institution of standard secondary school grade, or have the equivalent as demonstrated by examinations conducted by the College Entrance Examination Board, or by the authorized examiner of a standard college or university approved by the Council on Medical Education and Hospitals. Unless all the entrance units are obtained by examination, a detailed statement of attendance at the secondary school, and a transcript of the student's work, should be kept on file by the college authorities. This evidence of actual attendance at the secondary school should be obtained, no matter whether the student is admitted to the freshman or to higher classes.

(b) Credits for admission to the premedical college course may be granted for the subjects shown in the following list and for any other subject counted by a standard accredited high school as a part of the requirements for its diploma, provided that at least eleven units must be offered in Groups I-V of the following schedule:

SCHEDULE OF SUBJECTS REQUIRED OR ACCEPTED FOR ENTRANCE TO THE PREMEDICAL COLLEGE COURSE

II. Premedical College Course

(c) The minimum requirement for admission to acceptable medical schools, in addition to the high school work specified above, will be sixty semester hours of collegiate work, extending through two years, of thirty-two weeks each, exclusive of holidays, in a college approved by the Council on Medical Education and Hospitals. The subjects included in the two years of college work should be in accordance with the following schedule:
SCHEDULE OF SUBJECTS OF THE TWO-YEAR PREMEDICAL COLLEGE COURSE

Sixty Semester Hours Required

Required Subjects:

- Chemistry (a) ........................................ 16
- Physics (b) ........................................ 8
- Biology (c) ........................................ 16
- English composition and literature (d) .......... 6
- Other nonscience subjects (e) ..................... 12
- A modern foreign language (f) ................. 6-12

Subjects Strongly Urged:

- Psychology ........................................ 3-6
- Advanced mathematics, including algebra and trigonometry ................ 3-6
- Additional courses in chemistry ................. 3-6

Other Suggested Electives:

- English (additional), economics, history, sociology, political science, logic, mathematics, Latin, Greek, drawing.

SUGGESTIONS REGARDING INDIVIDUAL SUBJECTS

(a) Chemistry. Sixteen semester hours required of which at least eight semester hours must be in general inorganic chemistry, including four semester hours of laboratory work and four semester hours in organic chemistry, including two semester hours of laboratory work. In the interpretation of this rule work in qualitative analysis may be counted as general inorganic chemistry. The remaining four semester hours may consist of additional work in general chemistry or of work in analytic or organic chemistry.

(b) Physics. Eight semester hours required, of which at least two must be laboratory work. It is urged that this course be preceded by a course in trigonometry.

(c) Biology. Sixteen semester hours required, of which eight must consist of laboratory work.

(d) English Composition and Literature. The usual introductory college course of six semester hours, or its equivalent, is required.

(e) Non-science Subjects. Of the sixty semester hours required as the measurement of two years of college work, at least eighteen, including the six semester hours of English, should be in subjects other than the physical, chemical or biologic sciences.

(f) Foreign Language. A reading knowledge of a modern foreign language is strongly urged. French and German have the closest bearing on modern medical literature. If the reading knowledge in one of these languages is obtained on the basis of high school work, the student is urged to take the other language in his college course. It is not considered advisable, however, to spend more than twelve of the required sixty semester hours on foreign languages.

Recognition. This two-year premedical course in both quantity and quality is such as to make it acceptable as the equivalent of the first two years of the course in reputable, approved colleges of arts and sciences leading to the degree of Bachelor of Science.

PRE-DENTAL COLLEGE COURSE

The minimum requirement for admission to acceptable dental schools, in addition to high-school work, preferably including drawing and one unit of high-school Physics, is thirty semester hours of college work. This includes six semester hours in English, six in Chemistry, six in Biology and six in Physics, or an equivalent credit in high-school Physics.

PRE-LEGAL COLLEGE COURSE

The minimum requirement for admission to acceptable law schools, in addition to high-school work, is sixty semester hours of college work and the qualification to enter Junior class of an approved college.
DEPARTMENTS AND COURSES

1. As a rule, odd numbers indicate first semester courses; even numbers second semester courses.
2. In all (a) beginning and (b) year courses both semesters must be completed for credit toward a degree.
3. Courses marked with a star (*) were not given in 1924-1925.
4. The Faculty reserves the right to refuse to offer a course listed below for which there is not a sufficient number of applicants.

ACCOUNTING

1. Introductory Accounting.
   Principles of Journalizing; distinction between debits and credits; principles of single and double entry; keeping of ledger accounts and purposes thereof; loss and gain accounts and methods of determining losses and gains; trial balance and uses to which trial balances are put; preparation of financial statements. Credit, three semester hours.

   The course includes the elements of accounting. Graded exercises based upon text and lecture. One correlated with a study of the principles underlying the preparation of balance sheets and profit and loss statements of individuals, partnerships and corporations. The structure and meaning of the accounts making up these statements is emphasized. Credit, three semester hours.

3. Accounting—Intermediate.
   This subject is a continuation of Accounting 2, intended for students desiring a more thorough knowledge of accounts and auditing for general business training, and for students intending to become professional accountants. The course covers a study of advanced partnership problems; capital and revenue expenditures; analyses of profits. Accounts of administrators, executors and trustees; profit and loss and balance sheet construction; statement of application of funds; problems in foreign exchange; consolidations. Credit, three semester hours.

   Theory and Practice—making a balance sheet audit. Audit of current and capital assets; the nature of the examination is emphasized with particular reference to the preparation of working papers. Current and capital liabilities; limitations and possible scope of an audit. Opening and closing an audit; preparation of reports; duties and responsibilities of the auditor. Credit, three semester hours.

ASTRONOMY

1. Descriptive Astronomy.

2. Spherical and Practical Astronomy.
   Introduction to celestial mechanics. The determination of time, latitude and longitude. Conic sections. Orbits of planets and satellites. Three hours credit.

BIOLOGY

1a. Introductory Zoology.
   An introduction to the elements of general morphology and physiology. Studies are made of a graded series of invertebrate types illustrating the increase of complexity of form as correlated with division of function. More detailed examination is made of those groups which include many parasitic forms. Two lectures, one quiz hour, and four laboratory hours per week. First semester. Four hours credit.

1b. Introductory Zoology.
   A continuation of Course 1a. A detailed study of types under the Coelomata group. Prerequisite: Course 1a. Two lectures and four laboratory hours per week. Second semester. Four hours credit.

   An intensive study of type forms. The value of the structure studies as basal elements of vertebrate anatomy and
the principles of homology in the various groups are elaborated in the lectures. Two lectures, one quiz, and four laboratory hours per week. Second semester.

Four hours credit.

3. Embryology [General].
Maturation, fertilization, cleavage in various typical forms. Gastrulation and embryo formation in the Chordates. Acrania, Pisces, Amphibia, and Aves are studied and compared with some care. Two lectures, one quiz, and four laboratory hours per week. First semester. Prerequisite: Zoology 1 and 2 or equivalent. Four hours credit.

4. Embryology [Organogeny].
A continuation of Course 3. A study of the development of systems based on laboratory work on the chick and pig. Two lectures, one quiz, four laboratory hours per week. Second semester. Prerequisite: Courses 1, 2, 3 or their equivalent. Four hours credit.

5. Introductory Bacteriology.
Morphology and physiology of bacteria and related microorganisms; technique of cultivation and observation. Prerequisite: One year of college chemistry. Two lectures and four laboratory hours per week. Four hours credit.

6. General Bacteriology.
Laboratory methods, technique of cultivation and observation, and study of biochemical reactions. Laboratory lectures; assigned readings and reports. Prerequisite: Two years of college chemistry. Four hours credit.

7. Pathological Bacteriology.
Morphological and cultural characteristics of disease-producing organisms. Theories of immunity and serum reactions. Routine diagnostic procedure. Prerequisite: Course 5 or 6; organic chemistry. Six laboratory hours per week. Second semester. Three hours credit.

CHEMISTRY

1-2. General and Inorganic Chemistry.
A course of experimental lectures and problems combined with laboratory work. The laboratory work of the second semester includes a brief course in qualitative analysis. Two lectures, one quiz, and four laboratory hours per week. Both semesters.

One semester. Four hours credit.

1a, 2a. Lectures 2 hours a week. Both semesters. Four hours credit. 1b, 2b. Laboratory 4 hours a week. Both semesters.

Eight hours credit.

3. Qualitative Analysis.
Eight hours a week. One semester. Prerequisite: Course 1-2. Four hours credit.

4. Quantitative Analysis.
Lectures and laboratory work. 8 hours a week. One semester. Prerequisite: Courses 1-2 and 3. Four hours credit.

5-6. A Combined Course in Inorganic Chemistry and Analytic Chemistry.

ST. XAVIER HIGH SCHOOL
THE PREPARATORY SCHOOL OF ST. XAVIER COLLEGE

The history of St. Xavier High School begins with the history of St. Xavier College on October 17, 1831, when the Right Reverend Edward D. Fenwick, O.P., D.D., the first Bishop of Cincinnati, opened what, after the fashion of the times, was called "a literary institute" for the higher instruction of youth. For many years it was known as the Athenaeum and was the only school in Cincinnati offering secondary courses for boys.

BUILDING

The High School is located at Seventh and Sycamore streets, and is easily accessible from all parts of the city and from the Kentucky cities lying across the Ohio river. It is so situated as to maintain an identity of its own. All the functions of a separate school are given to it and it maintains its own debating teams, athletic teams, assemblies and other extra-curricular activities which contribute to the growth and progress of such a school.

PLAN AND PURPOSES

The St. Xavier High School is exclusively for boys, and is fully approved by the State Department of Public Instruction, and the North Central Association of secondary schools and colleges. It offers a curriculum primarily intended to fit for college entrance, but enough of the usual secondary subjects are offered to afford the student some latitude in his selection of courses. The High School diploma affords a sufficient number of credits to enable the graduate to enter any college or university.

THE FACULTY

It is the conviction of those who have planned the High School that the first consideration is the faculty. The teachers are principally Fathers and Scholastics of the Society of Jesus, but they are assisted in their work by men who are carefully selected for their character, experience, teaching ability and vigorous personality.

DESCRIPTION BULLETIN

A Special Bulletin containing all necessary information regarding terms of admission, faculty members, courses of study, tuition charges, privileges, and facilities will be sent to any one requesting it.

Address: PRINCIPAL, ST. XAVIER HIGH SCHOOL, Seventh and Sycamore Streets, Cincinnati, Ohio.

SATURDAY SCHOOL FOR TEACHERS

The Session of the St. Xavier College Saturday School for Teachers opened on Saturday, September, 1924. The faculty will be in attendance from 8:45 A.M. to 12:30, for consultation with students.

The School was organized in 1916, primarily to meet the needs of Sisters teaching in the Catholic schools and academies who wished to enjoy the advantages offered by the College. The enrollment has grown steadily, and courses have been added from time to time to satisfy the increasing demands of students engaged in the work so that it is now possible for Saturday students to take up studies representing every class of the four college years and every department in the curriculum. The courses in the Summer Sessions are planned to supplement those in the Saturday Session. So that students registered in the one may continue their work in the other.

Teachers are thus enabled to complete the entire curriculum for a college degree, or as many courses or years as they wish.

The advantage of this system, with its opportunities for contact with the college professors, over any correspondence system, will be readily apparent to every teacher. The school is conducted by the regular college faculty. St. Xavier College offers every source of class-room, laboratory and library to the teacher ambitious to advance in one favorite subject, or in all the subjects that make up the usual college course. Many who have entered and who kept up this work in the Summer Session, have graduated with the A. B. or other College Degree. A registration fee of $1.00 is required. There is no refund of registration fee and there is no refund of regular tuition fee after one month's attendance (four Saturdays). All laboratory fees are extra.

Address, The Registrar in Charge:
MR. W. T. BURNS, Hotel Anderson, Cincinnati, O.
**THE SUMMER SCHOOL**

1925

The Summer Session will open Monday, June 23rd. Instruction will continue for six weeks. Sessions will be held in the forenoon of every week day except Saturday. The purpose of the Summer Session is primarily to meet the needs of Sisters teaching in the Catholic schools and academies who desire advanced instruction and further study, with or without regard to a degree or professional advancement, and also to meet the needs of college students who desire either to remove deficiencies or to hasten the time of their graduation.

**Courses:** Professional courses of considerable variety will be offered to all those seeking certificates or diplomas, as well as to teachers who desire advanced credit. The regular faculty of the College will be supplemented by educators from other colleges and universities.

Regular college courses will be offered in the Languages, Mathematics, Philosophy, Psychology, Natural Sciences, Social Sciences, English, Ethics, History and Political Science. Opportunity will be given for classroom instruction in almost any subject that is taught during the regular school year.

Secondary school subjects will be taught to those who make application for them, and who need high school credits.

For information regarding courses in detail, allowance of credit, probable cost of attendance, and other matters that enter into your plans, make inquiry at the College offices, Seventh and Sycamore streets.
