This intensive teaching of a simple and well-organized method of independent word analysis is of singular importance at the K-3 level and in remedial work.

Sister Monica uses her books for the institute. In "Professor Phonics Gives Sound Advice," the student learns on the very first page three consonants and the short sound of a, how to slide these together into words, and to string the words into sentences. The child is reading from the word GO! The 42 sounds of English language are taught in a step-by-step logical procedure.

In "A Sound Track To Reading," the author's second book, the 42 basic sounds are further streamlined. This advanced intensive phonics book is designed for remedial reading to the intermediate, junior and senior high schools. Techniques helpful with both books will be provided. GESTALT THERAPY: INTRODUCTION TO THEORETICAL FOUNDATIONS AND THERAPEUTIC TECHNIQUES
August 20, 21, 22

PS 615-WS  One Credit Hour  After 320
ED 715-WS  9:00 a.m. to 4:00 p.m. (TH,F)  9:00 a.m. to 12:00 Noon ($)

Co-Directors: Dr. W. Michael Nelson and Dr. W. Groman

While gestalt therapy is over three decades old, there was a sharp increase in interest and use of gestalt methods in psychotherapy in the 1970s until it is now well established both as a major affiliation of psychotherapists and as a style of personal growth. This introductory workshop is designed for professionals and graduate students in psychiatry, psychology, counseling, social work, corrections, and other related fields who work with adolescents and adults in a therapeutic capacity. While the workshop is developed to present the continually developing body of knowledge and philosophy of gestalt therapy, the primary focus will be on developing the practical clinical skills of the participants in working with various clients. Since the focus of gestalt therapy is primarily experimental in nature, didactic material will be emphasized and supplemented by demonstrations and discussion. Another aim of the workshop will be to provide each participant with a group experience in gestalt therapy coupled with an explanation of how such experiences are generated and can be used for personal growth. Particular emphasis will be on awareness exercises and dreamwork.
