Adapting Teaching Techniques to Learning Styles

Two Offerings
(1) EDWS 501-W1 Two Credit Hours
June 7-11 Mon-Thur 8:30am-3:30pm, Fri 8:00am-12:30pm ALT 222
(2) EDWS 501-W2 Two Credit Hours
June 4, 5, 11, 12 Fri 4:00pm-9:00pm, Sat 8:00am-5:00pm ALT 222
Director: Dr. Margaret Stier Guest Speaker: Julie LaMothe

"Learning Styles" is often misunderstood; demystify "Learning Styles" by experiencing an update. Dr. Stier has toured schools using the program, and has details/pictures of "Learning Styles in Action" in current classroom situation! This seminar will present a hands-on opportunity for participants to explore the fascinating and practical Dunn Model of Learning Styles and Howard Gardner's "Theory of Multiple Intelligences". Every student, young or old, is an individual with particular modalities, strengths, which must be understood and used to accomplish maximum learning. Using learning style theory does not mean one-on-one tutoring: group-learning techniques will be experienced as participants learn about themselves and students as active learners.

Topics will include: learning style elements, construction of content area materials, analyzing participants teaching styles as well as learning styles, multisensory memorization, interpretation of student profiles, applications to homework, teaching global students, characteristics of the gifted, approaches for tactile-kinesthetic children, juggling varied learning styles, time management, understanding of mini-view of learning style research, sharing successful programs and implications for critical thinking.

Who should attend? Anyone interested in helping children from grade one through twelve, and college/adult learners.

For more information contact Dr. Stier @ 859 491-3359.

Limit: 25 participants Noncredit fee: $190 (EDWS 501-N1R / N2R)

Alfred Hitchcock in Hollywood
COMM 280/ HIST 280/ EDWS 284-W1 Two Credit Hours
June 7-11 Mon-Fri 4:00pm-9:30pm ALT B11
Director: Mr. Robert Cotter

This workshop will use the distinctive film career of Alfred Hitchcock to examine the relationship between a creative (and controlling) artist and the prevailing social and political preoccupations of American culture between 1939 and 1975. Several feature films and numerous film excerpts will be screened in class to develop familiarity with the aesthetic principles as well as the personal fears and obsessions that informed Hitchcock's style, the so-called "Hitchcockian Universe." This understanding of Hitchcock's technique and psychology will allow for an analysis of his major films as reflections of the national psyche for the times in which they were made. The interplay between the Hollywood studio system and Hitchcock's career will also be explored. Above all, the course will emphasize the sheer brilliance of Hitchcock's films as both entertainment vehicles and as cultural documents.

Limit: 25 participants  Noncredit fee: $190 (COMM 280-N1R)
Suggested registration deadline: May 26

America Through the Lens: Hollywood As Cultural Messenger
HIST 286/ EDWS 286/ COMM 297-W1 Two Credit Hours
July 26-30 Mon-Fri 4:00pm-9:30pm ALT B11
Director: Mr. Robert Cotter

This course is built on the premise that every Hollywood film and television narrative, though created for reasons of entertainment and profit (and sometimes art), is in fact a cultural artifact; a representation of the values, myths, ideologies and assumptions of the culture that produced it. Delivered to us by powerful mass communication technologies, these narratives shape our collective consciousness, affirming accepted ideological and cultural beliefs/myths and, sometimes, modifying them.

Hollywood films and television programs will be analyzed in order to both identify the cultural and historical messages they contain and to determine how and why they carry these messages. To facilitate this effort, the formulas and conventions of Hollywood genres (westerns, musicals, family melodramas, film noire, horror, etc.) will be examined. This understanding of genre will serve as a primary analytical tool as we deconstruct the films and television programs studied in class.

Limit: 25 participants  Noncredit fee: $190 (HIST 286-N1R)
Suggested registration deadline: July 12

Astronomy for Middle & High School Teachers

Limit: 15 participants  Noncredit fee: $190 (EDWS 566-N1A)
Suggested registration deadline: June 1

Baseball & American Culture
HIST 287-W1  Two Credit Hours
July 12-16 Mon-Fri 4:30pm-9:30pm ALT B11
Director: Dr. John Fairfield

"It's our game, that's the chief fact in connection with it: America's game." It "has the snap, go, fling of the American atmosphere - belongs as much to our institutions, fits into them as significantly, as our constitutions, laws: is just as important in the sum total of our historic life." - Walt Whitman

Commentators have long argued that baseball is a key to understanding American culture and the American character. Over the past two decades historians of the sport have unearthed an enormous amount of material that not only verifies this insight but also allows us to be more precise about the connection between baseball and the development of American culture. This workshop explores the social history of the game using a variety of historical, literary, and cinematic sources.

Limit: 30 participants  Noncredit fee: $190 (HIST 287-N1R)
Suggested registration deadline: July 1

The Bible in English Translation
CLAS 181-W1  Two Credit Hours
June 14-18 Mon-Fri 9:00am-4:00pm ALT 207
Director: Dr. Frank Shaw

Ever wondered what goes into producing the many modern English Bible translations you see and hear about? Why are there so many? What's the difference between Protestant, Catholic, and Jewish Bibles? These and many more questions will be answered as students work hands-on with well-known and less well-known translations, as well as learn about various study tools available for those without knowledge of ancient languages.

Limit: 30 participants  Noncredit fee: $190 (CLAS 181-N1R)
Suggested registration deadline: June 1

Christianity, Violence & Animals

Three Credit Hours
May 10-14 Mon-Fri 9:30am-5:30pm ALT 221
Director: Dr. Elizabeth Farians

This workshop will be about the relationship between people and animals. It will be directed to the professions such as: education, social work, ministry, criminal justice, nursing, science and law. The material also is aligned with peace studies and women's studies and it will be useful for parenting and personal living.

Our treatment of animals is so horrible as to be beyond description. It is not only unbelievably cruel but this violence rebounds to us in spiritual, psychological, and physical ways. The connections between the violence we inflict on animals and the resulting violent behavior of humans will be explored. For example, the stereotypical male domination of patriarchal religion and society and its effects on women, children and animals will be studied.

To offset the violence a program of humane education will be considered. Related scientific findings from disciplines such as psychology and sociology will be investigated. Social work implications and insights will be stressed. Also, the link between a plant-based diet and behavior will be examined. All this will be undergirded by a careful reading of the Judea-Christian Scriptures, thus presenting a religious basis for a compassionate lifestyle and a dominion of care for all creation.

The workshop will be practical as well as theoretical. Religious affiliation is not required. Vegetarian meals will be shared. There will be an open book exam for students requesting a grade.

HIST 285/ COMM 197-W1 Two Credit Hours
May 10-14 Mon-Fri 4:30pm-9:30pm ALT B11
Directors: Dr. John Fairfield & Mr. Bob Cotter

Hollywood has always taken historical themes for some of its most ambitious projects, a trend that has become even more pronounced in the past decade. What has not always been understood is that Hollywood and the development of the American movie industry has been a central element in the social and cultural history of 20th century America. Thus this workshop has two purposes: to critically examine various film images of American history and, equally important, to place Hollywood and its products in the larger context of 20th century American history.

The workshop will include the screening of five (5) major films and clips from many others. Robert Sklar's Movie Made America will serve as the primary historical text. Guest speakers will focus on specific cinematographic and historical aspects of American filmmaking. The workshop should be particularly useful for secondary teachers interested in enriching and broadening their use of film in the curriculum.

Movies & Cities
HIST 289/ COMM 289/ SOCI 289-W1 Two Credit Hours
July 19-23 Mon-Fri 4:30pm-9:30pm ALT B11
Director: Dr. John Fairfield

This workshop examines the multifaceted historical relationship between movies and cities. The workshop should appeal to those interested in movies and/or cities, and teachers interested in enhancing their use of film in their curriculums. Several feature-length films and numerous movie clips will be central to the course. The workshop begins with a discussion of motion pictures as an advance in human perception, an ability to see and understand things previously hidden. This perceptual advance was in many ways a product of urban experience in both Europe and America but it also had the potential for enhancing our understanding of urban life and urban structure. The workshop then examines the close relationship between America's inner cities and the development of the motion picture industry. The impact of movie images and movie discourse on American urban policy from the 1930's through the 1960's will be the third major theme of the workshop. Finally, the workshop will investigate film noir (a dark and highly stylized film genre typified by the hard-boiled detective story) as a way of understanding and misunderstanding cities. Tentative texts include: Ross, Working-Class Hollywood, Christopher, Somewhere in the Night: Film Noir and the American City. Tentative films include: Metropole, Greed, Public Enemy, City for Conquest, Murder, My Sweet, The Big Clock, and Rear Window.

Myth and Film
CLAS 245-W1 Two Credit Hours
July 12-16 Mon-Fri 9:00am-4:00pm ALT 217
Director: Dr. Edmund Cueva

This workshop is an examination of the influence of GraecoRoman mythology on the modern cinema. The course focuses on how the films we view enhance the mythic stories being presented through artistic manipulation of visual images and sound. A primary goal for this course is to develop a rudimentary scheme for how one should "read" a film by considering the film's director to be the author of the modern work, through the use of visual and sonic elements, as different from the original story. This "difference" depends not only on the director, but also on the period in which the film was made. Students should contact instructor to receive syllabus before the first class meeting.

Director: Dr. Susan Crew

James Hillman says that speaking to soul is psychology’s failed mission. In this workshop we look at the nature of being human through two lenses, the indigenous wisdom of the Dagara people of West Africa and the ideas of Archetypal Psychology as described by James Hillman. Dr. Crew has been studying with Malidoma Some’ for the past three years and will spend two weeks in West Africa with the Dagara people in January of 2004. Two Credit Hours
June 8-12 Tue-Sat 8:30am-4:30pm ARM 2
Directors: Dr. Michael Nelson, III & Dr. L.E. Montgomery

In the past few decades there have been noticeable increases in family difficulties and the stressors that impinge upon them, particularly impacting the social, emotional, and academic functioning of children and adolescents. In recognition of this fact, various mental health professionals have been giving greater attention to developing new methods and techniques specially designed to provide help to diverse families. The purpose of this workshop is to: a) give an overall introduction to family therapy, with particular emphasis on strategies targeting youths' academic and social performance; b) present the newest advances in family therapy; c) present a developmental framework to guide therapeutic interventions; and d) provide practical training in family therapy. Although emphasis will be given to the systems approach, other approaches and theoretical orientations will be discussed and evaluated. The presentation will follow an action-oriented style with maximum involvement of participants.

The course is designed for teachers who work with children whose behavioral and academic problems interfere with their classroom performance and mental health professions who provide individual and family psychotherapy (e.g., psychologists, social workers, marriage counselors, school counselors, graduate students of psychology, counseling, etc.)

Writing is Power: A Writer's Workshop
ENGL 305-W1  Two Credit Hours
June 7-11 Mon-Fri 1:00pm-5:00pm ALT 216
Director: Dr. Alison Russell

Do you want to make your writing interesting, emphatic and lively? To teach others how to write effectively? Writing is Power focuses on how language works, offering new perspectives on stylistic issues as well as on grammar and punctuation. Most people tend to equate grammar and punctuation with correctness, with rules set forth by scores of well-intentioned English teachers wielding red pens; rhetorical grammar, however, is about understanding the choices you make as a writer and the effects of those choices on readers. Do you know, for example, that words before commas receive greater stress than others in the sentence? (When you read that last sentence, did you emphasize, "know"). Do you know that using passive voice can sometimes be more effective than using active voice, which most of us have been taught to do? Students will be required to complete brief assignments for each class and one longer paper based on the course materials.

Limit 12 participants  Noncredit fee: $190 (ENGL 305-W1)
Suggested registration deadline: May 24

Office of Instructional Technology Services (ITS)
The office of instructional technology services (ITS) assists faculty, students and staff with their instructional and research computing needs. ITS is located on the ground level of Alter Hall. ITS maintains a liberal operating schedule during the summer term. Lab access hours are posted at each lab entrance, and appear on the VAX login screen, as well as on the XU website: http://www.xavier.edu/depts/iss/cac/acadreslab.html

There are six major computing labs on campus:
- Alter B15 (Macintosh), Alter B2 (PC), HA1 21 (PC and Macintosh), Cohen 108 (PC and Macintosh), Elet 101/105 (PC and Macintosh), and Kuhlman (PC and Macintosh).

All labs are under the supervision of the ITS student helpdesk.

ITS offers a varied slate of computing workshops for interested users during each academic term. Though these workshops are intended as in-service training for XU staff, a limited number of seats are available to XU students on a space-available basis. Users may also avail themselves to several tutorials at their own pace and convenience. The tutorials can be accessed from all special workstations in ITS.

Dining Service
During the summer, Xavier's main dining facility is the retail food court operation located in the Gallagher Center. In addition, the James Hoff Dining Hall is used primarily for conference groups and summer camps. However, anyone may purchase the cafeteria-style meals on a pay-as-you-go basis when this facility is in operation. The James Hoff Dining Hall is located in the Cintas Center. For more information about dining service or the hours of operation, call 513 745-4874.

All Card (Student ID)
The student identification card, All Card, is required for all full-time and part-time students. The card is the official university identification and must be in your possession while on campus. The card services include access to the library resources (both on- and off-campus), access to Student Online Services, purchase of athletic and special event tickets and facilities access.

In addition to serving as your identification card for easy access to campus facilities and programs, the All Card is used as cash to pay for on-campus services such as bookstore, food services, copying, library fees, post office, Xavier Document Center, all vending machines and off campus XU-LD calling services. The All Card technology even includes the student's ability to integrate US Bank's complete banking as well as Internet banking services with Xavier's financial services program. The system eliminates issues related to multiple cards for campus access and funds management. Convenience, simplicity and security...one card does it all! Questions regarding All Card services should be referred to the assistant director of auxiliary services and support at 513 745-3675.

This card can be obtained at the all card center, 513 745-3374.

In addition to the various collections, this facility provides study, lounge, conference, and instruction space. It houses photocopy and multimedia equipment and computer workstations. For current members of the Xavier community, the libraries provide on-site and off-campus access to XPLOR, the library's on-line catalog, more than 200 research databases, more than 25,000 electronic journals, and the World Wide Web. The libraries resources and services are further enhanced by participation in three consortia: the Association of Jesuit Colleges and Universities, the Greater Cincinnati Library Consortium, and OhioLINK (Ohio Library and Information Network).
