General Information

The contents of this bulletin together with the college catalogue of 1942-1943 constitute the complete information for the academic year 1944-1945.

The Accelerated Program

Three sessions of sixteen weeks each will be offered in the academic year beginning approximately on July 1, November 1, and March 1. Freshmen may enter college at the beginning of any trimester. This accelerated plan enables students to satisfy all requirements for a degree within two years and eight months.

Admission

Application for admission is made in form. A form for this purpose can be had on request.

Applicants must arrange to have an official transcript of credits sent to the Registrar from the high school from which they graduated or from the colleges attended. The arrangement must be made at such a time as to have the transcript on file with the Registrar not later than one week prior to registration. All credentials which are accepted for admission become the property of the University and are kept permanently on file. All communications regarding admission and registration should be made to the Registrar.

Admission by Certificate

Graduates of Accredited High Schools. The usual method of admission for high school graduates is by certificate of graduation from an accredited high school together with an official record of units and an official recommendation from the principal. A unit is the equivalent of a subject extending through a school year of thirty-six weeks with five recitations per week. A minimum of fifteen units is required.

In presenting the fifteen units for admission an applicant may offer either nine units distributed as follows:

<table>
<thead>
<tr>
<th>Subjects</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>3</td>
</tr>
<tr>
<td>Language</td>
<td>2</td>
</tr>
<tr>
<td>History</td>
<td>1</td>
</tr>
</tbody>
</table>

or ten units in four sequences, two major sequences (three units each) and two minor sequences (two units each). The sequences will be selected from the five groups of subjects listed below. Not more than one of the required sequences may be accepted from any one group, except Group B, where sequences may be offered in each of two languages.

Group A. English and Speech. A major sequence must be offered from this group.

Group B. Language. The languages acceptable in this group are Greek, Latin, French, German, Italian, Polish, and Spanish. Any sequence must be in a single language and no more than two sequences will be acceptable.

Group C. Mathematics. A minor sequence in this group must be offered and must include one unit of algebra and one unit of plane geometry. For all applicants, except applicants for the pre-engineering program, a unit of physics may be combined with a minor sequence in mathematics to form a major sequence. Applicants for the pre-engineering program must present 1½ units of algebra, 1 unit of plane geometry and ½ unit of solid geometry for a major sequence in mathematics.

Group D. Science. Not more than one unit in any one science may be offered. Physics may not be counted toward a science sequence if it is counted in the mathematics group toward a major sequence. If biology is included neither botany nor zoology may be counted.

Group E. Social Studies. The subjects and the number of units in each subject which are acceptable from this group are as follows:

<table>
<thead>
<tr>
<th>Subjects</th>
<th>Units</th>
<th>Subjects</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>History</td>
<td>1 to 4</td>
<td>Commercial Law</td>

<tr>
<td>American Government</td>
<td>½ to 1</td>
<td>Geography</td>
<td>½</td>
</tr>
<tr>
<td>Economics</td>
<td>½</td>
<td>Sociology</td>
<td>½ to 1</td>
</tr>
</tbody>
</table>

The remaining units may be in any subjects counted toward graduation by an accredited high school. However, single half units in languages will not be acceptable.

Applicants who have a deficiency in their sequences not to exceed two units, and who meet all other requirements will be admitted as deficient. This deficiency, however, must be removed before admission to Sophomore standing.

Registration

Fixed dates in each session are reserved for registration and are to be found in the academic calendar in this catalogue. A late registration fee of five dollars ($5.00) will be charged if applicants or students do not register on the prescribed dates.

Student Housing

The student residence is under the supervision of the Jesuit Fathers. All out-of-town students are required to reside on the
Academic Expenses

All communications concerning expenses should be addressed to the Registrar.

Tuition and fees must be paid in advance and on the day designated as registration day. Attendance at classes is prohibited until all financial obligations have been completed. In special cases payment by instalments will be permitted. A refund of tuition may be claimed in the case of withdrawal or dismissal. The amount refunded, however, will be diminished by twenty per cent of the total initial amount for each two weeks of attendance. Fees will not be refunded. Application for refund must be made in writing. The amount of refund will be calculated from the date of application.

All fees are subject to change as conditions necessitate. Such changes take effect at once and apply to all students unless otherwise exempted. The expenses listed here are for the year 1944-1945.

Regular Expenses

Tuition (per credit hour) .................................. $6.50
Matriculation fee (payable once) ........................................ 5.00

Room per session ............................................................ 48.00

Military Science and Tactics

Courses in Military Science and Tactics as given normally in the Reserve Officers’ Training Corps are divided into two sections: the Basic Course of two years which is compulsory for every qualified freshman and sophomore student who is a United States citizen, and the Advanced Course of two years which is open to selected applicants who have completed the Basic Course.

For the present no Advanced Course training will be offered. The Basic Course is still being given in a modified form and consists of two years of general military training designed to give the student a background which will be valuable to him in any branch of service when inducted. The work not only will make him a more valuable soldier but will benefit him individually for any occupation.

Information for Veterans

Credit for Service in the Armed Forces

The United States Armed Forces Institute has been designated by the War and Navy Departments as a central clearing agency to assemble information regarding military and educational experiences of service men and women and to transmit this information on their request to the educational institution they desire to enter. Service men and women planning to enter or return to Xavier University after demobilization are urged to make use of this service. Application forms may be obtained by writing to the United States Armed Forces Institute, Madison 3, Wisconsin.

On the basis of the United States Armed Forces Institute report or certificate credit will be allowed for military service and for courses completed by correspondence provided such work does not duplicate courses already credited and is applicable to the curriculum desired.

Credit for ASTP, V-12, and other programs will be allowed upon the receipt of an official transcript from the institution where courses were taken provided the courses are applicable to the curriculum desired.

Non-graduates of High School

Service men and women who left high school before being graduated will be considered for admission by examination. Results of the General Educational Development examinations given by the United States Armed Forces Institute will be accepted in place of the university examinations usually required. Applicants who are deficient one or two units of the fifteen high school units required for admission will be able to make up the deficiency while taking other college courses.

Financial Aid

Any honorably discharged veteran who has had active service is entitled to one year of education and an additional period of training
not to exceed the time such person was in active service after September 16, 1940, and before the termination of the war, but in no case is the total period of education to exceed four years, provided (1) his education was interfered with by reason of military service; (2) he served 90 days or more in the Army or the Navy exclusive of any periods of study such as the Army Specialized Training Program or Navy Training Program; (3) he was not over 25 years of age when he entered service; (4) he enrolls not later than two years after discharge or the termination of the war, whichever is later; (5) his education is completed within 7 years after the termination of the war.

The Veteran's Administrator will pay to any approved private or public educational institution which the veteran chooses the customary cost of tuition and laboratory, library, books, supplies, and other incidental fees up to a total of $500 for the ordinary school year.

Application for education may be made at Xavier University or at the nearest Veteran's Administration office.

A limited number of honor scholarships will be given by Xavier University. Application for an honor scholarship should be made to Chairman, Scholarship Committee, Xavier University.

Curricula

**Degree Programs**

The regular liberal arts courses which lead to the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Philosophy, Bachelor of Business Administration, and Bachelor of Literature will be conducted each session.

**Pre-professional Programs**

Three academic years of pre-professional liberal arts courses required for entrance into schools of dentistry, law, and medicine can be completed within two full years at Xavier University.

Students in the vicinity of Cincinnati who desire to enter the University of Detroit College of Engineering may complete the first four semesters of non-cooperative courses at Xavier University within sixteen months.

**Technical Programs**

*Chemical Analyst.* Many business concerns, such as, manufacturers, dairies, wholesale grocers, hospitals, etc., need technically trained chemical analysts. Xavier University offers a sixteen-month curriculum to prepare young men to enter this field. Ex-service men with experience in the Medical Corps, Chemical Warfare Corps, etc., should be well-fitted for this program of studies. The program includes: General Zoology, 4 hours; Bacteriology, 2 hours; Inorganic Chemistry, 8 hours; Qualitative Analysis, 4 hours; Quantitative Analysis, 15 hours; Organic Chemistry, 6 hours; English, 6 hours; Algebra and Trigonometry, 6 hours; Ethics, 6 hours; Religion, 4 hours.

*Aviation.* Aviation students, while earning their Private Pilot's and Commercial Pilot's License, at the same time can acquire two years of academic college credit within sixteen months. Flight training may be had at any of the near-by airports, such as Tri-State Aviation Corp., Sharonville, Ohio or Cincinnati Aircraft Service, Lunken Airport, Cincinnati. The academic program includes: Aviation courses, 19 hours; English, 12 hours; Mathematics, 15 hours; Physics, 14 hours; Religion, 8 hours.
### Departments and Courses

#### Introductory Notes

The courses of instruction are numbered in accord with a unified plan. Lower division courses are numbered 1 to 99. Within the lower division numbers, the numbers 30 to 99 generally indicate that the course is open to sophomores. Upper division courses are numbered from 100 to 199. Courses given in the first semester are usually designated by an odd number; second semester courses by an even number. Double numbers, when used, indicate that the first semester course is prerequisite for the second semester course and that both must be satisfactorily completed to obtain credit for either course. In most departments the courses are grouped in decades according to sequence, content, or some other plan of sub-division. In computing minimum requirements for a major, the Senior Tutorial Course 199 may not be counted.
