COURSE DESCRIPTION:

- **ARTS 119: The Potter’s Wheel** is a comprehensive survey of beginning “throwing” (working on the potter’s wheel) for the non-art major. ARTS 209 is for the art major.
- You will progress through a series of thrown functional forms in order to explore the infinite possibilities of working on the potter’s wheel.
- You will study all aspects of producing a finished ceramic piece, including construction techniques (wet & dry), the mixing of clay bodies and glazes from scratch, kiln loading and firing, along with gaining a historical overview. The course consists of a combination of demonstrations/discussions, critiques, lectures, audiovisuals and interaction, both individually and collectively.
- Involvement in all areas of studio maintenance is required.

COURSE OBJECTIVES:

- Students will begin to possess a technical proficiency in manipulating clay as a 3-Dimensional material;
- Students will become skillful with the basic potter’s wheel processes and techniques of clay construction;
- Students will understand the concepts of form and function and their interrelationship;
- Students will solve creative problems with originality, imagination and risk, including research and synthesis of technical, aesthetic and conceptual knowledge.

ATTENDANCE POLICY:

- Attendance is mandatory due to the many lectures and demonstrations that cannot and will not be repeated for absentees. In addition to class time, be prepared to spend extra hours in the studio completing the various clay experiences. There will be a grade deduction for absence - for every two (2) absences, your final grade will be lowered one (1) full letter grade. Two (2) “tardies” equals one (1) absence. Arriving late and/or leaving early may result in an absence. Arrive on time and expect to stay the full 2½ hours.

GRADING POLICY:

- The Department of Art’s Grading Policy is listed on a separate attached sheet. Specifically for ARTS 119, all grades (8) will be weighted equally on a 100 point scale:

OTHER CLASS PROCEDURES:

- Studio maintenance is a crucial part of any art class. Students are expected to participate in all aspects of this, which includes the timely mixing of clays and glazes, assisting with the stacking and unstacking of the kilns along with other kiln maintenance, and cleaning up after themselves at the end of each class session. Strict adherence is expected, and will directly affect the final grade.
- Turn off all cell phones, pagers and other electronic devices while in class. An environment of mutual respect is expected.

This course fulfills Fine Arts (3 hr) requirement of the CORE CURRICULUM promoting such learning outcomes for students to: be effective communicators in writing and orally; be critical thinkers who analyze and interpret images, objects, and artifacts; discuss fundamental questions that arise from the human condition; be creators of new knowledge and expression utilizing your imagination and creativity; create, perform, and produce work that synthesizes technical execution and expressively communicates; understand and appreciate the arts, encouraged to use human experience and religious traditions as resources to address contemporary issues; act as global citizens who recognize the societal, ethical and moral dimensions of art-making.
• Every class session of the semester is outlined on the following pages. Students are expected to be on time and prepared for each class and each designated critique. With each class session a project is late, it will be dropped one full letter grade. Active participation in class discussions and critiques will directly affect the final grade.
