This Restricted-Access Syllabus is brought to you for free and open access by the Philosophy Syllabi 2014 at Exhibit. It has been accepted for inclusion in Philosophy Syllabi Fall 2014 by an authorized administrator of Exhibit. For more information, please contact exhibit@xavier.edu.
Xavier University
PHIL 290 - 11: Theory of Knowledge
Fall Semester, 2014

Instructor: Dr. Aaron Szymkowiak
E-Mail: szymkowiak@xavier.edu
Office: 222 Hinkle
Office Hours: TR 11:15-12:45, W 9:00 a.m. -- Noon

Class room: Hailstones 3
Time: TR 1:00 – 2:15

Required Texts

Plato, Five Dialogues (Grube, trans. Hackett edition)
Descartes, Discourse on Method and Meditations (Cress, trans. Hackett edition)
Kant, Prolegomena to Any Future Metaphysics (Ellington, trans. Hackett edition)

Course Description

Theory of Knowledge will involve the central questions associated with science, religion, and metaphysics: What counts as knowledge, and how do we best seek it? What is nature, and in what degree are we a part of it? Is knowledge fundamentally a matter of certainty or probability? What is chance? Does nature follow laws? Does our manner of investigating nature change the kinds of answers we should expect?

We will approach these questions by placing special emphasis on contrasts between classical and modern views on truth. The centerpiece of the course will be the Cartesian revolution placing method and certainty at the core of discussions about knowledge. This will culminate in questions about the social and moral implications of adopting different conceptions of knowledge.

Attendance, Participation, Assessment, and Readings

There will be two exams during the semester, one a mid-term, and the other a final. Each of these will consist of a few short essay questions and will count for 25% of the total grade. There will be two essays written outside of class, each totaling 5-6 pages in length. These will each be worth 20% of the total grade. The remaining 10% will be determined by class attendance, participation, and possibly a few short in-class quizzes. Each student will be permitted a maximum of two unexcused absences without penalty. Any student missing 10 or more class sessions automatically fails the course. Exams taken late will always involve a grade penalty, barring severe circumstances (grave family or medical emergencies). A student must take both exams and turn in both essay assignments to pass the course.
Plagiarism of any kind will not be tolerated, and per Xavier’s official policy, will be met with a FAILING GRADE for the assignment and perhaps even the course. On this point, I highly recommend that students take the Xavier Library tutorial and accompanying quiz on plagiarism. Should any questions remain on plagiarism, either in the abstract or in the particular (that is, if one is not sure about an assignment one is about to turn in), please see the instructor. You will not have a second warning.

The following standards have been adopted for grading in the department of philosophy:

A= work that not merely fully and accurately reproduces class discussion, the main thread in an argument or the main philosophical significance of a text under discussion, but which goes beyond these and indicates a contribution of the student, giving evidence of a deeper understanding of the material in question.

B= work that shows a more or less complete and exact understanding of the issues, texts, and/or arguments as explained in class, clearly and logically formulated without going beyond such explanations.

C= work that shows basic understanding of the material but with errors, omissions and confusions of either a formal or material nature.

D= work that shows a minimal acquaintance with the material or serious logical and conceptual flaws in formulating responses to the question raised, the argument at issue, or to the philosophical text under discussion.

F= work that shows inadequate acquaintance with texts, issues, or ideas with little or no valid logical argumentation; or, the work is a plagiarism. In cases of plagiarism, which involve the use of published or other’s written work without giving credit, an F will be awarded for the semester and the student’s name reported to the Dean of the College.

CLASS ETIQUETTE: There will be NO Computers, Cell Phones, iPods, Electronic Tablets, or other electronic devices permitted in class, unless some device is required by a student to compensate for a medically documented disability.

There is NO “extra credit” in this course. You are in college and responsibility for achievement is yours. I will be more than happy to assist you with drafts of essays and exam answers before they are due – you may choose to avail yourself of this opportunity to produce drafts or not, but once a grade is assigned, the book is closed.

This course will involve some very difficult reading. Do not become discouraged if first readings of the texts yield some degree of frustration and less-than-complete comprehension. It is crucial for students to read most if not all of the assignments more than once, though first readings should precede the class in which each text is to be discussed. Your success in this course depends in large part upon a willingness to come to class with questions and discuss them. Should you anticipate absences, be sure to talk with your professor to make sure you are properly following the progress of the course in your absence.

Students will be expected to follow the lectures by reading the required texts. The following portions of these texts will be required reading:
Plato: *Meno* (the entire dialogue)

Aristotle: *Physics* Book II (p. 33-55 in Oxford Ed.)

Descartes: *Discourse on Method* (the entire work)

Hume: *Enquiry* (Sections 1-6, 8-10)

Kant: *Prolegomena* Preface, Preamble, First and Second parts (p. 1-63 in Hackett Ed.)

What follows below is a *rough* outline of readings to be covered on specific dates, and may be subject to some change depending upon our rate of progress, class discussion, and other factors. Once again, be sure to check regularly with the instructor and/or classmates if you miss class.

**Course Reading Schedule**

8/26: Introduction and Plato’s *Meno*

8/28-9/11: Plato’s *Meno*

9/16-23: Aristotle’s *Physics* Book II

9/25-10/7: Descartes’ *Discourse* Parts 1-3

10/9: Fall Holiday

10/14: **MID TERM EXAM**

10/16-30: Descartes’ *Discourse* Parts 4-6

11/4-11/25: Hume’s *An Enquiry Concerning Human Understanding*

11/27: Thanksgiving

12/2-12/11: Kant’s *Prolegomena*
