FACULTY

REV. JAMES McCabe, S.J., A.M.
President of St. Xavier College.

REV. GEORGE R. KISTER, S.J., A.M.
Dean of St. Xavier College.

REV. JOHN F. McCORMICK, S.J., A.M.
Professor of Philosophy.

REV. JAMES L. McGEARY, S.J., A.M.
Professor of Physics.

REV. WILLIAM I. BUNDSCHUH, S.J., A.M.
Professor of English.

REV. EUGENE J. DALY, S.J., A.M.
Instructor in Mathematics.

WILLIAM T. BURNS, A.M.
Instructor in Latin, Xavier Academy, Avondale.

REV. AUSTIN G. SCHMIDT, S.J., A.M.
St. Louis University, Education.

REV. FRANCIS J. GERST, S.J., A.M.
St. Louis University, Mathematics.

REV. JOSE TAMARIZ, S.J.,
St. Stanislaus, Cleveland, Ohio; Spanish.
GENERAL INFORMATION

ORIGIN AND SCOPE

IN THE summer of 1914 St. Xavier College undertook the task of conducting summer classes for the benefit of the teaching Sisterhoods. A limited number of courses were offered to meet the existing demand, with the intention of broadening the scope of the work as the needs of the situation developed and the means which the College could dispose of would allow. The work then inaugurated continued during the four succeeding summers on the limited plan at first outlined; but with the opening up of the extension courses during the year 1917-1918 it became evident that the program of the summer session would have to be enlarged.

In enlarging the program special requirements of those for whom the summer classes were inaugurated have been kept in view. The work as at present organized is divided into:

1. Courses of College grade in which credit can be gained towards a degree;

2. Courses offering credit towards the fulfilment of the requirements for College Entrance.

It is the intention to make the courses in the summer school continuous, as far as possible, with the courses given in the Extension classes throughout the year.
LOCATION

The classes will be held at St. Xavier School, Sycamore street, between Fifth and Sixth streets. This central location is easily reached from all parts of the city.

TIME OF SESSION

The Summer session of 1918 will begin on Monday, June 24th, and end on Friday, August 2d. Classes are held every week day, except Saturday, but Saturday, July 6th, will be substituted as a class day for Thursday, July 4th.

Classes will be held in the morning only, from 9 to 12.

CREDIT

As the Summer Session lasts six weeks and every course is given five times a week, there will be a total of thirty hours in each course. On this basis credit of two semester hours will be given for the successful completion of each course. Six semester hours (six credits) represent the maximum amount of credit that can be gained in one summer. Summer courses may be counted along with courses carried during the year in the Extension division in fulfilment of the requirement of residence for a degree.

It is understood, however, that only such students as are able to meet the College Entrance requirements can be given college credit for work done in the Summer Session. Students not seeking college credit will be admitted to any course which they are otherwise qualified to follow with profit.
FEES

A fee of five dollars ($5.00) is charged for each course taken. There are no other charges. Fees are payable within the first ten days of the session.

EXAMINATIONS AND GRADES

An examination is held at the close of each course on the subject-matter covered in the course. In publishing the results of examination no grade except the passing grade will be given.

REGISTRATION

Students may register for these Summer Courses any time after June 1st. Registration closes on July 1st. It is desirable that students should register as soon as possible after June 1st.

ENTRANCE REQUIREMENTS

The entrance requirements for students taking these courses for College credit will be the same as the requirements for entrance to the Freshman class of St. Xavier College.

Candidates for admission to the Freshman class must present entrance credits amounting to sixteen (16) units of high school work. A unit is a series of recitations or exercises in a given subject pursued continuously throughout the year. The number of class exercises required in a week for each unit shall, in general, be five. Double periods are required for laboratory courses.
Not less than a full unit will be accepted in the first year of any language. Half-units will be accepted, but only when presented in addition to integral units in the same subject. Any two of the biological sciences (Physiology, Botany, Zoology) may be combined into a continuous year's course equal to one unit.

Candidates for admission to St. Xavier College from other institutions of collegiate rank, which offer the same or equal courses of study, will be granted the same standing as at the former institution upon presenting in advance of registration: (1) a certificate of honorable dismissal; (2) an official transcript of college credits, with specification of courses and year when taken, hours and grades; (3) an official statement of entrance credits and conditions, showing the length of each course in weeks, the number of recitations and laboratory exercises each week, the length of recitation and the mark secured.

No student will be admitted to the College as a candidate for a degree after the beginning of the Senior Year.

Students who have successfully completed prescribed and elective courses to the amount of one hundred and twenty semester hours are recommended to the Trustees for the first academic degree. Such recommendations are ordinarily acted upon and the degrees are conferred at Commencement, at which time the students receive diplomas from the President of the College.
SCHEDULE OF COURSES

Education S. 11. The Teaching of High School Subjects. After a discussion of the guiding principles involved in class-room instruction, assignments, recitations, examinations, etc., this course proceeds to a study of the aims and methods in the teaching of English, Latin and Greek, History and Mathematics.

   Father Schmidt. Two credits.

English S. 7. The Drama. The history of the drama is outlined; the technique of the drama is studied in theory and as exemplified in some of the following Shakespearean dramas: King Lear, Macbeth, Hamlet, Julius Caesar.

   Father Bundschuh. Two credits.

Ethics S. 7. In this course are treated the subjects belonging to general ethical theory: the nature of the moral act; the distinction between moral good and moral evil; moral habits; the natural and positive moral law; conscience; rights and duties.

   Father McCormick. Two credits.

Latin S. 11. Latin Composition. This course in Latin composition, beginning with easier exercises, leads up to more advanced work in the treatment of the syntax of the subordinate clauses. Throughout the course special emphasis is laid on Latin idiom.

   Father Bundschuh. Two credits.

Logic S. 1. This course will comprise the customary treatment of formal logic with added emphasis on inductive reasoning and on the informal reasoning of everyday life and of literature.

   Father McCormick. Two credits.

   Father Gerst. Two credits.

Philosophy S. 1. [See Logic.]

Philosophy S. 3, 4. [See Psychology.]

Philosophy S. 7. [See Ethics.]

Physics S. 1. College Physics: mechanics; equilibrium and motion of solids, liquids and gases; molecular forces, elasticity and capillarity; sound. Lectures and laboratory work.

   Father McGearry. Four credits.

   Note. The above course as a lecture course without laboratory.

   Two credits.
Psychology S. 3, 4. Beginning with the explanation of the cerebro-spinal nervous system, this course leads on to the study of the phenomena of sensuous life: sense-perception, imagination and memory, sensuous feeling and appetite, movement; and the phenomena of rational life; the concept, the judgment, the reasoning process; rational appetency.

Father McCormick. Two credits.

Spanish S. A-B. The elements of Spanish grammar with practice in the writing and speaking of Spanish and the reading of easier selections.

Father Tamariz. Two credits.

II. COURSES GIVING CREDIT FOR COLLEGE ENTRANCE

Geometry S. I. Plane Geometry. Rectilinear figures, triangles, quadrilaterals, polygons, loci, theorems, original theorems, construction, similar triangles, concurrent lines of a triangle, theorems of inequality. Circles, metrical relations, constructions, numerical computation, mensuration of polygons, comparison of areas, constructions, regular polygons, circles, inscription and circumscription, measurement of the circle. Text: Stone-Millis.

Father Daly. One unit.

Latin S. Ia. This course will cover in substance the matter assigned in Bennett's First Year Latin up to and including the regular verb. It is counted as the equivalent of one semester in First Year Latin.

Mr. Burns. One-half unit.

N.B.— Provision will be made for the continuation of the work of First Year Latin in the Extension courses during the year.

Latin S. II. Caesar. The reading of selected parts of the Gallic War with insistence on the more ordinary syntactical forms.

Mr. Burns. One unit.

Spanish [See course in Spanish outlined above.]
